EMLONG'S SENSATIONAL

Brilliant

**EVERBEARING
 STRAWBERRY**

PLANT PAT.
 No. 1183

Best for Eating!

Catalog No. 210

MATCHLESS QUALITY and FLAVOR

Never have we seen a Strawberry that charmed us so with its live glistening beauty! "Brilliant" berries are so bright and appetizing you can almost taste them before they reach your lips. The flavor is an outstanding accomplishment — rich and tangy but lacking in acidity.

RIPE BERRIES IN 6 WEEKS

"Brilliant" is the quickest berry maker you ever saw! The plants are so thrifty and vigorous, the very first blossoms can be left on to bring you perfect berries just a few weeks after the plants are set out. Give "Brilliant" a trial this spring. For further description see Page 54.

RHODODENDRONS

Create the Splendor of an Estate
In even the Smallest Garden!

Unquestionably, the Rhododendron is one of our most elegant native plants. Always a thing of beauty — these new, hardy hybrids are truly magnificent and perfectly adaptable for use in most sections if given reasonable care. Can be grown in full sun or shade. In the South, light shade is necessary. Loamy acid soil, rich in organic matter is preferred, and a mulch of peat moss or leaf mold will ensure more luxuriant growth.

**Ideal for Every Type Home —
Every Size Garden!**

Rhododendrons, with their beautiful broad-leaved, leathery, ever-green foliage, are perfect anywhere in the landscape or foundation planting. They make a most effective display when planted in groups, combining all colors for contrast and interest . . . in the long sweeping lines of an informal border they create for even the smallest garden, a splendor one associates with large estates. They can be used with dramatic effect at entranceways, and in combination with other plants in front of the house. Do plant some Rhododendrons this spring — wherever you grow them, they will reward you with a lifetime of garden beauty. We offer the following outstanding varieties:

CATAWBIENSE GRANDIFLORUM. 1394. Deep lilac color.

CATAWBIENSE ALBUM. 1392. Beautiful glistening white.

ENGLISH ROSEUM. 1395. Soft rose with tint of lilac.

DR. H. C. DRESSELHUYS. 1393. Deep crimson red.

American Holly

**Brilliant Red Berries! Beautiful Evergreen Foliage!
Add Color & Variety to Your Landscape All Year!**

(*Ilex Opaca*) By far the most famous of the Holly family. Now acclimated to northern states, it is rapidly becoming one of our most important ornamentals. Perfectly suited to foundation planting for every type of home, and excellent for lawn specimens. Grows to a height of 25 feet but looks best when kept trimmed to a compact size of 8 to 12 feet. Plant in any good garden soil; we recommend the use of aluminum sulphate in planting. Grows best in semi-shade.

Grow your own Christmas holly! The broad, oak-like shiny leaves are distinctive and their rich green color is greatly enhanced by quantities of bright red berries which appear in the fall and remain nearly all winter. Beautiful throughout the year, the tree appears to greatest advantage at Christmastime. Plant this spring, for years of garden beauty! Your choice of either **1366 male or 1364 female plants.** Plant one of each for best results.

Holly →

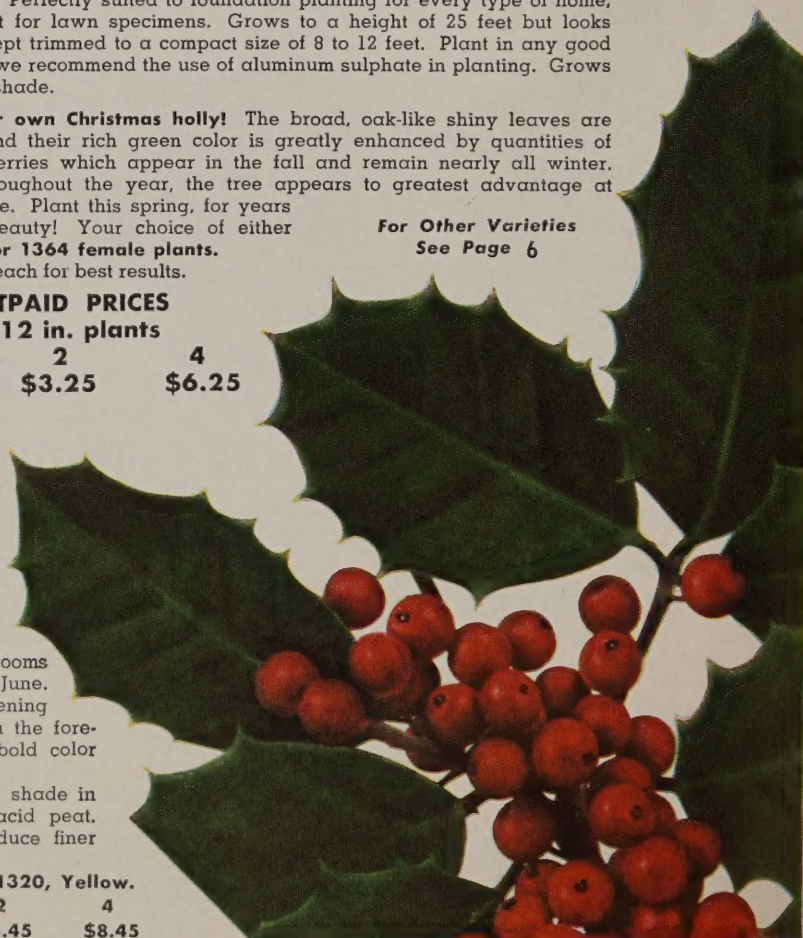

AZALEA MOLLIS

Gorgeously colored aristocrats! Clusters of large, waxen blooms completely cover the 3 to 4 foot, graceful shrub in May and June. This unusual, hardy shrub offers many possibilities for enlivening your garden with sparkling color. Use them for color accents in the foreground of shrub border or foundation planting; in groups for bold color effects.

Can be grown either in full sun or in the shade (prefer light shade in the South). Use soil generously mixed with leaf mold and acid peat. Each fall a top dressing of well rotted stable manure will induce finer blooms. Water freely in dry weather. Do not cultivate.

Choice of colors: 1314, Orange; 1316, Red; 1318, Salmon; 1320, Yellow.

EMLONG'S

Famous For Quality Nursery Stock For Over **60** Years

IT'S EASY TO ORDER BY MAIL FROM EMLONG'S

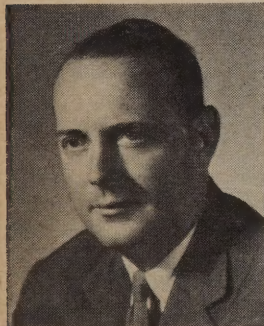

Every year more and more people are getting the "shop-by-mail" habit. Why? Well, let's consider the many advantages:

You avoid crowds and waiting for service. You can make your selection leisurely, in the comfort of your own home. Emlong's catalog makes it easy for you to select what you want — every item is fully described and illustrated faithfully.

You save money. You get better plants for less money when you order-by-mail from Emlong's because we grow large quantities and ship direct-to-you. Another advantage of ordering from a large grower like Emlong's is that you get the newer and better varieties first. You have the fun of surprising friends and neighbors with the newest and best in nursery stock.

You profit by our 60 years of horticultural experience — and by the continuous development and testing of varieties, that is done here at Emlong's by our large staff of plant propagators, to insure your getting top quality nursery stock at bargain prices.

You avoid risk of loss when you order-by-mail from Emlong's, because you are fully protected by our written Guarantee. Join the wise shoppers — order-by-mail now.

You're Always Welcome at Emlong's

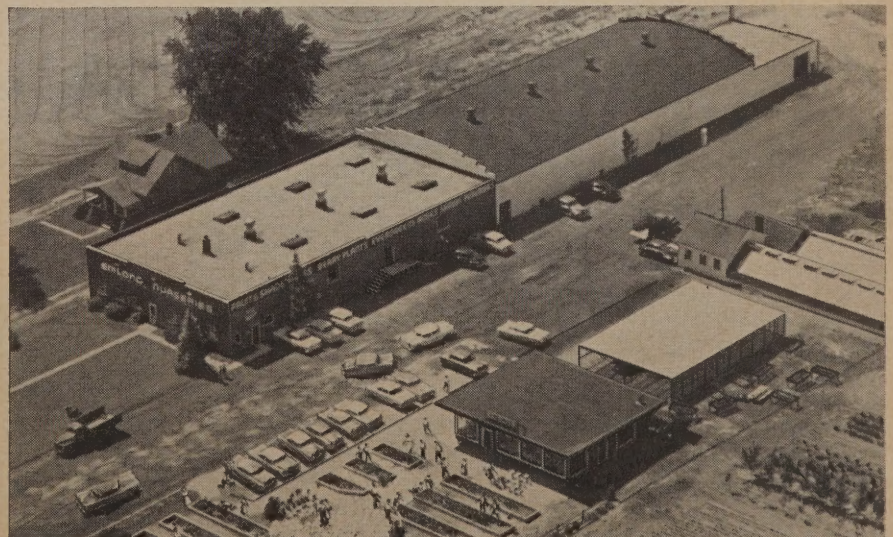

Located right on U. S. 12, near Stevensville, Michigan.

Our large NURSERY SUPER MARKET is just 30 miles from LaPorte and the Indiana Toll Road — less than 2 hours driving time from Chicago.

We invite you to shop in comfort at our large nursery "supermarket" — offering the most complete selection of nursery stock in Western Michigan.

Personally Select Your Planting Needs from our vast display of top quality plants, shrubs and trees. Whatever you need — for gardens, lawns, landscape or foundation planting — Emlong's have it! Our staff of experts will gladly answer questions and advise you on planting problems. **Open 7 days a week**, during planting season, for your convenience.

Emlong's Drive-In Garden Center at Niles, located on U. S. 31, between Niles, Mich., and South Bend, Indiana, offers the same large selection of nursery stock as our home office.

Emlong's Home Office, Display Ground & Nursery Supermarket.

COLORFUL ORNAMENTALS

BRILLIANTLY COLORED FOLIAGE

Royal Purple

SMOKE TREE

(RHUS COTINUS)

1400. New — A First! A completely distinct and different color never before attained in the Smoke Tree. Magnificent rich claret-coloring of an intense shade. The feathery plumes, in June and July, are just as richly colored as its foliage. In late summer, the matured leaves show a mottled edge, of light red around the dark purple leaf. The "Royal Purple" foliage remains from early spring until late fall. A riot of color all season. Plant is of neat, compact growth. A hardy and most outstanding variety. Excellent for background planting and as individual specimens. We are sure this new "Royal Purple" Smoke Tree will make a fine display in your garden and cause a great deal of comment. Be the first to have this sensational new ornamental, plant one this spring.

2-3 ft.	\$3.95	\$7.50

New-Unusual

CRIMSON ROCKET

(Prunus Newport)

1322. Here is another first! We can now offer exquisite Flowering Plums in shrub form. This new Flower Shrub Plum is richly colored and elegant year-around. Its rich crimson foliage remains handsome throughout the long summer season and provides bright contrast wherever used. A showy shrub particularly fine as a foreground specimen plant. Combined in a planting of low growing plants in front of a house or below a picture window, it is perfect, and it is equally useful in front of shrubs. An outstanding shrub growing 3 to 5 feet tall and may be kept trimmed to proper size for any location. A real conversation piece. Try a planting this spring.

Royal Purple Smoke Tree

▲ DWARF RED LEAF BARBERRY (Crimson Pygmy)

1326. New, low-growing plant that is perfect wherever rich color accents are desirable. Plants grow 8 to 12 inches tall and 15 to 24 inches across. The leaves are a lustrous, bronzy-red, and provide a sparkling color contrast to evergreen and shrub plantings. May be used along walks and for low borders. The brilliant red coloring is best when plants are grown in full sun. Be first in your locality to have this new introduction. Order today.

TREE PEONIES

Truly a King of the Flowers!

Tree Peonies are a low, many branched shrub, growing to a height of 5 to 6 feet tall. Nothing can compare with its king-size blossoms. The flowers, which often measure 10 to 12 inches across, can be had in a variety of colors. Their texture is as fine as silk and they have a very pleasing fragrance. The stately trees are simply "loaded" with hundreds of blooms.

Tree Peonies have been grown in China for a thousand years, first in the gardens of the Ming Emperors, where they gained the name "The Imperial Flower of China".

They are very hardy, long lived and disease resistant. Grow well in any climate with any good, well drained garden soil being satisfactory. Need very little care.

Now at last you can have Tree Peonies at a price never before dreamed of. We offer the following colors: Red, 2552; Pink, 2554; Purple, 2556; White, 2558.

Free Gifts for Early Orders!

Ordering Early Pays You Handsome Dividends

Order before April 1st, 1959 and receive one of these Gifts from Emlong's, for every \$6.00 worth you buy from this catalog. Here's how it works: With every order of \$6.00, you may select any one of the premiums listed.

With every order of \$12.00, you may select any two premiums, alike or different.

With each additional \$6.00, you may select one more premium.

IMPORTANT. Premiums allowed only on orders with full remittance enclosed. No premiums allowed on C.O.D. orders. The premiums you select must be written on the order, or none will be sent; even if you notify us later. If we run short of some items, we reserve the privilege of changing premiums—sending you stock of equal or greater value.

WE PAY POSTAGE ON MOST ITEMS

You will please note that most items listed in our 1959 Spring Catalog are delivered to you postpaid, and are so listed. This saves you money.

There are, however, some items that are too large to ship by parcel post, such as fruit trees and shade trees. There are items such as hedge plants and some varieties and quantities of berry plants that are listed at such a low price for the high quality of stock that we cannot afford to pay the shipping charges. These items are shipped to you transportation charges collect.

In some orders there are trees which must go by express, and also some stock which would ordinarily go by parcel post. In order to avoid making two separate shipments, we send the entire order by express. For this privilege we include extra stock which has a greater value than the amount of the extra transportation charges. When selecting this extra stock for you, we choose items that fit in with the other items on your order.

References: We refer you to the Farmers & Merchants National Bank, Benton Harbor, Michigan; Postmaster and Express Agent at Stevensville, Michigan; Merchants Credit Bureau, Benton Harbor, Michigan; and Dun and Bradstreet.

ORDER BY NAME and CATALOG NUMBER

Items listed in this catalog will be reserved for you as long as the limited supply of them lasts. Many items were sold out early last year! Don't wait until planting time — reserve your needs as soon as you receive this book! We send you a receipt and ship at planting time. First orders will receive first attention. Order early and save!

WE RETURN ALL PAPERS

All papers pertaining to your orders will be returned to you when the order is acknowledged. Do not destroy them. If it becomes necessary to write us AT ANY TIME in regard to your order, be sure to return everything, including correspondence, original order and shipping tags. It is not necessary to return planting instructions.

GET YOUR COMPLETE PLANTING GUIDE...

With every planting order, we send FREE a complete Planting Guide. It tells in a clear simple way how to plant, so that even if you have never done any planting, you can have success. It tells how to prune, water and care for plants over winter; how far apart to plant; when and where to plant, etc.

10% Discount ... FOR JANUARY CASH ORDERS

All orders postmarked before February 1st, and accompanied by cash in full, will be allowed a 10% discount on all items, except special offers and those marked "No Discount." Your order will be reserved for you and shipped at proper planting time for your locality. Order early and save!

EMLONG'S GUARANTEE TO YOU

Emlong's guarantee everything to reach you in finest growing condition. If found to be otherwise, make damage claim within 3 days after receipt of stock and we will replace damaged items free.

Emlong's guarantee all stock to live and grow. If anything fails, report such loss to us within 60 days, or not later than July 1st. We replace during the next planting season. Half price replacements from July 1 to September 1. The nursery is not responsible for losses caused by unfavorable weather or improper planting care.

Emlong's guarantee everything to be true to name. If found to be otherwise, we will replace free upon due proof of untruthfulness.

It is mutually agreed that our liability cannot be greater than the purchase price.

Broad-Leaf EVERGREENS

WILL BEAUTIFY YOUR YARD THE YEAR AROUND!

Ilex Rotundifolia

Hollies

ILEX ROTUNDIFOLIA

1430. A compact evergreen shrub with shiny green foliage, which reminds one of Boxwood except leaves are somewhat heavier. A handsome member of the Holly family; particularly suited to low plantings such as hedges, under windows in foundation planting or in front of taller plants. One of the most popular hardy Broadleaf Evergreens grown. 6-8 in. plants, 75c each; 2 for \$1.40; 5 for \$3.25; 10 for \$6.25; 25 for \$14.50, postpaid.

ILEX CONVEXA

1431. One of the choicest of broad-leaf evergreens. Plant is very bushy; grows about 3 feet tall. Shiny, dark green, Boxwood-like foliage is somewhat convex. Blends beautifully with other evergreens; is also an excellent accent plant. Well suited for low hedges. Plant 18 inches apart, in full sun or light shade. 6-8 in. plants, 75c each; 2 for \$1.40; 5 for \$3.25; 10 for \$6.25; 25 for \$14.50, postpaid.

Ilex Convexa

EUONYMUS RADICANS

1440. An upright, broad spreading shrub with rich bright green foliage that remains on the plant year round. Makes a shapely bush 4 to 5 feet tall. Its growth habit and easy culture make this an outstanding shrub for individual specimen planting. A plant that will blend well with your established evergreen plantings. The rigid branches are a perfect sight when carrying the red berries which hang on late in the season. Thrives in sun or partial shade. Be sure to plant one or more in your garden for a brilliant autumn display. Heavy 12-15 in. plants, \$1.69 each; 2 for \$2.98; 4 for \$5.69, postpaid.

EUONYMUS PATENS

1438. Attractive and easiest grown evergreen shrub. Compact and shapely; grows about 6 feet tall. Rich green foliage remains on the plant nearly throughout winter; is quickly replaced by shiny new foliage in spring. In autumn, numerous Bittersweet orange berries add to its charm. Splendid for hedge or specimen planting. Succeeds in shade. Heavy 12-15 in. plants, \$1.49 each; 2 for \$2.69; 4 for \$4.95, postpaid.

BOXWOOD

WELLERI. 1436. The hardiest of all Boxwood in cultivation. Whether in the small home-grounds or in a large estate, Boxwood gives an appearance of age and dignity to its surroundings. Welleri has large dark green leaves and is fast growing. Makes a dense hedge quickly, and can be trimmed to any desired height and shape. Will thrive anywhere; in poor soils, in sun or shade or under tall trees and sunless corners. Perfect for low hedges and edging. We cannot recommend this grand plant to you too highly. Heavy 6-8 in. plants, \$1.69 each; 2 for \$2.98; 4 for \$5.69, postpaid.

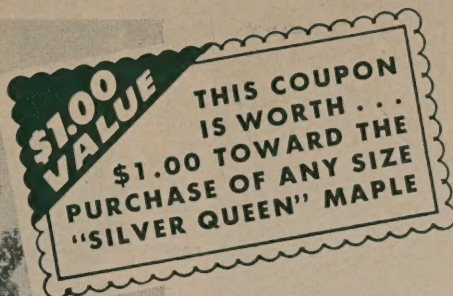

American Holly

Ideal for Beautiful Evergreen Hedges

1365. Distinctive, glossy evergreen foliage and brilliant red berries make this one of the most satisfactory hedge plants for year-around beauty. Very hardy, can be grown in all sections. Grows rapidly and may be trimmed to any desired height, from 4 feet to 20 feet. Unlike many hedge plants which become drab during winter, American Holly is refreshingly green and colorful throughout the year. Makes a compact growth and is perfectly suited to many uses around the home — as a low hedge to outline walks and driveways; a medium tall hedge to fence your property; a tall screening hedge to shut out noise and unsightly views. Grows best in a fertile, well-drained, acid soil. We recommend the use of aluminum sulphate in planting. For a dense hedge plant 3 feet apart in the row. Plant 2 or more for proper pollenization. 10-12 in. plants, 3 for \$2.29; 5 for \$3.29; 10 for \$6.29; 25 for \$14.95, postpaid.

Silver Queen Maple

- SEEDLESS
- VERY HARDY
- FAST GROWING
- GROWS ANYWHERE

1238. We are particularly pleased to offer this sensational new hybrid Silver Maple to our customers, because its many superior qualities meet the needs of present-day home owners.

As you know, the Silver Maple has been an excellent fast growing shade tree for many years; its only fault was the production and shedding of

seed pods that were such a nuisance. Consequently, Mr. Henry Kleine of Newport, Michigan, hybridized a Maple for us that has developed into a wonderful fast growing, seedless tree.

The Silver Queen Maple is drought-resistant; hardy and adaptable to a wide range of soils. It is a beautiful shade tree with interesting cut leaf type foliage and is pyramidal in growth habit. The rapid growth of this tree is the answer to a long-felt need of many of our customers who want shade for their homes in a short time. To many the cost of planting a large shade tree would be prohibitive. With Silver Queen Maple there is no need to wait years for shade — you get lots of shade in a short time, at a reasonable price. The supply is limited—order early.

CUT LEAF WEEPING BIRCH

Pictureque Summer and Winter

1202. The aristocrat of all Birch trees. Graceful, pendulous branches, finely-cut silvery green foliage and shimmering white bark make this a tree of great beauty the year around. Unmatched by any other ornamental tree. Grass will grow right up to the trunk. Needs no elaborate soil preparation, but prefers a moist location and a sunny spot. The white bark comes a year or two after planting. Increases in beauty year after year.

Moraine Locust (Pat. No. 836)

MORAINÉ LOCUST

Sensational New-Fast Growing Shade Tree

1220. The beautiful, new Moraine Locust is a hardy, drought-resistant tree that grows successfully on a wide range of soils. It withstands the same extremes in temperatures as the common Honey Locust and is as long-lived. It has no unsightly seed pods to clutter the lawn, and non-fruiting habit makes for better foliage. The tree forms a large, beautifully shaped head, similar in appearance to the American Elm. The finely cut foliage allows enough light to filter through to promote excellent lawn growth, yet is dense enough to discourage crabgrass. Whether your need is for quick shade, or to replace old, undesirable trees, Moraine Locust is your answer.

RED ZABELI HONEYSUCKLE.

1424. The beautiful and brilliantly colored red Honeysuckle—the reddest flowers of any bush Honeysuckle! It is just the bush you have been looking for. In May, the bush is transformed into a red mound by the thousands of red flowers which cover it from top to bottom. Blooms followed by an abundance of bright red berries. A tall growing, compact shrub; excellent for background of border or screening purposes.

HYDRANGEA A.G. 1370. An upright shrub growing to a height of 3 to 4 feet with large attractive heart-shaped leaves. Huge flower-heads of pure white are borne in early summer lasting until fall. It is an excellent shrub for foundation and border planting. Does well in either sun or shade. Perfectly hardy, thrives everywhere. A garden standout!

HYDRANGEA P.G. 1372. One of the showiest shrubs in cultivation. Immense cone-shaped blooms of white appear in early summer turning to shades of pink and bronze as the season progresses. Grows 4 to 6 feet tall, blooming from mid-summer until frost. Thrives in sun or shade. Hardy everywhere. Fine for cutting, lasting a long time. A real beauty wherever planted.

FORSYTHIA, Spring Glory. 1360.

A spectacular new Forsythia which bears large, pale yellow flowers which completely cover the branches in early spring before the leaves appear. Canes grow erect with graceful drooping tips. Glossy green foliage. Hardy in all sections of the country and thrives in all soils. Grows 5 to 6 feet tall. For a sparkling and cheerful display next spring, plant Forsythia Spring Glory.

PERSIAN LILAC. 1390.

A dwarf variety with slender, arching branches tipped with large loose clusters of fragrant purple flowers. A more profuse bloomer than the common variety. Can be used to advantage in groups, masses or in the foreground of taller growing shrubs. Their beauty and sweet fragrance are known by all.

BEAUTY BUSH. 1328. Handsome flowering shrub, upright in growth. In June, masses of bell-shaped pink flowers completely cover the graceful, arching branches. Delightful fragrance. Grows 6 to 8 feet tall, in ordinary soil, in sun or partial shade. Has excellent foliage.

FRENCH PUSSY WILLOW. 1422.

This is the large, cultivated French variety, with large fuzzy grey catkins with a pinkish cast. A welcome sight in early spring. The shrub is tall growing and hardy anywhere. Has attractive long, narrow green leaves. A beautiful shrub in summer for use as a tall screen or background planting. Attractive in all seasons.

WHITE SNOWBERRY. 1404.

Large clusters of attractive, waxy white berries remain on the shrub through most of winter. Pink flowers bloom during summer; lustrous green foliage. Grows 3 to 4 feet tall. Very showy and succeeds everywhere. Does well in shade.

TAMARIX RUBRA. 1416.

Deep pink flower spikes, 12 to 18 inches long, and delicate green foliage produce a charming lacy effect. Blooms all summer. Flowers and foliage are lovely for cutting. Grows 8 to 10 feet tall. Unsurpassed for screen or background. Thrives in sun or partial shade and any ordinary soil. The lacy loveliness and charm of this shrub is not found in any others.

Beautiful ORNAMENTAL SHRUBS

RED BARBERRY

1104. This beautiful Barberry, valued for its brilliant red leaves, holds its rich color all summer and fall. Red berries remain through the winter. Makes a fine color contrast among evergreens. As a complete hedge it is gorgeously colorful; also good for group plantings and corners. Plant 18 inches apart in sunny location. Sturdy, well-branched bushes. Rust-proof variety. Grows about 3 ft. high. **Heavy 2-Yr., Field-grown Specimen Plants.**

BUDDLEIA

Butterfly Bush or Summer Lilac

No other perennial or shrub gives such a brilliant lasting display of color so soon after planting. These bushes will grow 4 to 5 feet this summer and bloom from mid-summer to late fall. Attracts rare butterflies. Cut off tops each fall. New tops grow each year and bloom on the new wood. Plant 3 to 5 feet apart. No special soil needed. Easy to grow, require little care.

ROYAL RED. 1336. Newest of the brilliant tones. Deep wine-red color; makes striking bouquets.

DUBONNET. 1332. Magnificent 12-inch flower spikes of glowing Dubonnet-red, produced in abundance.

ILE DE FRANCE. 1334. A favorite deep purple. Bushes grow 4 to 5 feet high; a real beauty in full bloom.

CHARMING. 1330. Delicate pink flowers on elegantly long spikes. Makes a bushy growth, about 5 feet tall.

2-Yr., No. 1 Field Grown Plants
\$1.00 each; 2 for \$1.95; 4 for \$3.65, postpaid.

Pink Flowering Almond

ABELIA GRANDIFLORA

1302. A beautiful shrub that remains attractive most of the year. The plant bears a continuous supply of pink and white flowers from early summer until frost. Foliage is glossy, looking as though it had been waxed. Leaves are practically evergreen. Grows to about 5 feet at maturity. Recommended for borders, in groups or alone. Can be used as a hedge in sunny or partly shaded areas. In cold climates, we suggest planting in a protected area. A grand, showy shrub that will provide a spot of color wherever it is planted.

Abelia Grandiflora

SCARLET SPIREA ANTHONY WATERER

1406. A remarkable dwarf growing, compact, upright and very dense shrub. Makes a neat, rounded bush 2 to 3 feet tall. Bright crimson flowers are borne in flat clusters about three inches across which completely cover the plant. Will bloom until frost if flower heads are cut as they fade. Makes a low bushy hedge that requires no trimming. Also popular for use in front of higher shrubs, in foundation or border plantings.

HARDY HEDGE PLANTS

① HARDY PRIVET

(Amoor River North) 1110. Easiest to grow of all Privets. Very hardy; thrives under favorable planting conditions. Makes an attractive hedge in all seasons with its glossy green leaves and clusters of white flowers, followed by berries. Trim to desired height and shape any time during summer. Leave untrimmed for foundation and screen plantings. Set bushes 9 to 12 inches apart. For a wider hedge, plant 2 rows, alternating the plants. Well branched, well rooted bushes.

ROSA MULTIFLORA—A Living Fence

1112. Now you can have a natural living fence that will last for years, without expensive upkeep. **Rosa Multiflora** is the amazing new hedge material that garden and farm magazines have written so much about recently. The plants are very hardy; grow rapidly, and in just a few years will make a hedge dense enough to keep all types of animals in their place.

Eliminate expensive repair bills and maintenance costs by planting **Rosa Multiflora** wherever a fence is needed. Easy to grow; thrives under most soils and conditions of weather. Requires no training, pruning or clipping. Grows to a height of 8 feet, blooms each year and is the most practical, decorative planting material that can be used. Plants should be set 12 inches apart. A living fence adds beauty and value to your property. Plant **Rosa Multiflora** this spring.

Pink Tartarian HONEYSUCKLE

1106. No hardier plant can be found than Honeysuckle. Grows to a height of 8 to 10 feet with upright, somewhat spreading branches. Foliage is bright green. Flowers are borne freely in May and June and are sweetly fragrant. Grows rapidly, in sun or partial shade. Makes a fine, dense hedge for privacy or for screening unsightly areas or buildings. Plant 18 to 24 inches apart. **Select hedging grade, 12-15 in., plants 10 for \$2.95; 25 for \$6.45; 50 for \$12.25; 100 for \$21.95.**

CHINESE ELM HEDGE

1108. A very popular hedging plant, especially valuable where rapid growth is important. Extremely hardy and drought-resistant; thrives everywhere. In just a few years after planting, you will have a compact, dense screening hedge. May be trimmed to any desired height; trim the same as Privet or other hedges. Plant 12 inches apart. **18-24 in. plants, 10 for \$1.95; 25 for \$3.95; 50 for \$6.95; 100 for \$12.95.**

RUSSIAN OLIVE

1153. A fine ornamental with dense, silvery-green foliage. Bears a great profusion of spicily fragrant, yellow flowers, followed by berries which attract many species of birds. Branches thickly from the ground up; perfect for tall hedging, and "snow catch" rows in shelter belts and windbreaks. Plant about 4 feet apart. **Field-grown, 18-24 in., plants, 5 for \$2.25; 10 for \$4.25; 25 for \$8.25; 50 for \$15.95.**

Boston Ivy

BOSTON IVY

(*Ampelopsis Veitchi*)

1510. The best known and most popular of climbing plants. Very attractive, 3-lobed glossy green leaves. A rapid grower after established; clings to any surface. Will thrive in sunny or shady locations. Foliage turns scarlet in the fall. Valuable for wall coverings, tree trunks and posts. **2-yr. Select Vines, \$1.00 each; 2 for \$1.95; 4 for \$3.75, postpaid.**

Wisteria Vine

Everblooming **GOLDFLAME** Honeysuckle

1516. Beautiful flower clusters as large as your hand, cover the vines from June until frost. Curved petals and long stamens; brilliant rose-red outside and gold inside. Lovely for cutting. May be trimmed as vine, shrub or low hedge. Blooms profusely year after year; requires little care. **2-yr., field-grown plants, \$1.00 each; 2 for \$1.95; 4 for \$3.75, postpaid.**

HALL'S Fragrant Honeysuckle

1518. Dainty yellow and white blossoms intermingled, produce a beautiful effect all summer. One of the most fragrant of all Honeysuckles. Vines are hardy, vigorous growers; ideal for covering unsightly buildings, screening out undesirable views and softening harsh fence lines. **2-yr., field-grown plants, 75c each; 2 for \$1.45; 4 for \$2.75, postpaid.**

ENGLISH IVY (Green All Winter)

1512. A lovely vine as well as a splendid ground cover. Leaves are small and grow close together, making a solid mass of dense, rich, glossy evergreen foliage; remains green all winter. Has many uses, from covering walls, rocks, tree trunks and trellises to carpeting bare spots in shady places, edging beds and borders. Plant 2 to 3 feet apart for mass effect. **2-yr. Pot Plants, 60c each; 5 for \$2.75; 10 for \$4.75; 25 for \$9.95; 50 for \$18.95, postpaid.**

EVERGREEN BITTERSWEET

1514. (*Euonymus Radicans Vegetus*.) Strong growing variety. Dark green firm leaves last through winter and form an excellent background. Bears clusters of large, red Bittersweet berries; make good winter bouquets when dried. Will climb either brick or wood. Adaptable as a shrub or ground cover. Valuable for shady places where a delicate evergreen is needed. **2-yr. Select Vines, \$1.29 each; 2 for \$2.49; 4 for \$4.69, postpaid.**

ORCHID WISTERIA VINE

1524. Hundreds of gracefully pendulant clusters, 12 inches and more in length, cover the vine during May and June. These hardy Wisteria will lend a charming touch to your garden when grown on fence, trellis or garden wall. The pea-like, orchid-colored florets are borne in dense, compact clusters and make a gorgeous display in full bloom. A hardy, vigorous growing vine that will last for years. Well adapted for arbor plantings. **2-yr. field-grown vines, \$1.45 each; 2 for \$2.75; 4 for \$4.95, postpaid.**

SILVER LACE VINE

1520. Beautiful, fast growing vine. Myriads of snow-white clusters of dainty blossoms cover the vine all summer. Will grow 15 to 20 feet the first year; clings to any support. Prefers a sunny location. Foliage is perfectly clean; insects do not bother it. Valuable for covering unsightly buildings, barns, walls. **2-yr. Select Vines, \$1.00 each; 2 for \$1.95; 4 for \$3.75, postpaid.**

Gold Flame Honeysuckle

Evergreen Bittersweet

Silver Lace Vine

Evergreen **GROUND COVERS** FINE FOR SHADE

PACHYSANDRA TERMINALIS

1528. A trailing plant with beautiful waxy green leaves that stay green all winter. One of the most valuable plants for use in densely shaded areas where grass will not grow, and the only plant that will thrive under pine trees. Plants make a dense growth and spread out rapidly and should be set 1 to 2 feet apart. Makes a beautiful low hedge for bordering walks and drives, and a splendid covering for steep banks, ravines and terraces.

VINCA MINOR—PERIWINKLE

1526. Attractive, glossy green leaves and lovely violet-blue flowers make a very showy and effective ground cover. Used extensively under shrubs and trees and on graves; in fact, in any shaded areas where other plants will not grow. A trailing plant that spreads rapidly and makes a dense, compact growth. Plants are hardy and trouble free; will thrive in sun or shade. Suitable for edgings to shrub borders, along wooded paths, etc.

EVERGREENS for Lasting Beauty

Majestic Junipers

SPREADING PFITZER JUNIPER →

1012. One of the best evergreens for use wherever a low-growing tree is desirable. Thrives anywhere. Valuable in foundation plantings beneath windows and in front of taller evergreens. It is one of the few evergreens that will withstand considerable shade. The beautiful, blue-green feathery foliage is attractive the year around. May be trimmed as desired. If left untrimmed, the low, spreading branches will reach a spread of 6 to 8 feet.

COLORADO BLUE SPRUCE

1020. One of the showiest evergreens. Foliage color ranges from deep green to silvery blue-green, depending upon the season. Grown from select Blue Spruce seed, but trees do not show blue to any extent until 2 to 3 feet tall. Symmetrical in form and tall growing. Extensively planted for Christmas trees.

← SCOTCH PINE

1052. A decorative tree densely covered with blue-green needles of medium length. Pyramid form gives great character to the tree. Rapid growing, very hardy. Widely planted for windbreaks, screens and tall, dense hedges.

AUSTRIAN PINE

1048. The darkest and richest green of all Pine trees. Broad-based, solid in shape due to dense, heavily needled branches. Hardy and vigorous in growth. Tall, dignified form.

NORWAY SPRUCE

1022. Fast growing, tall, stately tree. Dark green, thick, short needles. Very popular and widely used for outdoor living Christmas trees. Compact, dense growth makes it ideal for windbreaks.

← NORWAY SPRUCE STURDY WELL-ROOTED TRANSPLANTS

Emlong's Hardy Flowering Shrubs

CHRISTMAS BERRY (Photinia Villosa)

- Ornamental in early Spring
- Continuous bright red fruit
- Colorful red-bronze fall foliage

1446. There is no other fruiting shrub that is so attractive throughout the year as the Christmas Berry. This shrub has a compact habit of growth, reaching a height of 6 to 8 feet high. Easy to grow under any conditions and not particular about the soil it grows in. Graceful habits; a good display of white blooms in spring climaxed by an enormous crop of bright red berries that adorn the bush and remain well into winter. Shiny green foliage turns to bronze-red in fall. Very highly prized because its brilliant red berries can be cut for early winter bouquets.

There are few shrubs which give you as much pleasure in the garden or which are so satisfactory for cutting. The display of color is truly gorgeous.

ALTHEA (ROSE OF SHARON)

A very pretty, tall growing shrub with large, double rosette flowers and fancy green leaves. Blooms from late summer through fall, when other shrubs have finished blooming. Flowers are brilliantly colored and contrast beautifully with the foliage. Blooms are long lasting and make a showy display all season. Popular for tall backgrounds and well suited for screens or single specimens. Grows 6 to 8 feet tall; erect and well-shaped. An old-time favorite, but worthy of a place in every modern garden. **Your choice of colors:** 1306, Pink; 1308, Purple; 1310, Red; 1312, White. 18-24 in. 2-yr. plants, 95¢ each; 2 for \$1.75; 4 for \$3.35, postpaid.

HEAVENLY BLUE ALTHEA

1305. (*Althea Coelestis*) We are proud to offer this beautiful new introduction. The large, wide-open, flaring flowers, often 3 to 4 inches across, are borne on long stems from July until frost. An erect growing shrub of stately and formal shape. Particularly well suited for screens, lawn specimens, shrub border or colorful hedge. 18-24 in. field-grown plants, \$1.50 each; 2 for \$2.75; 4 for \$5.25, postpaid.

OREGON GRAPE-HOLLY

1432. (*Mahonia Aquifolium*) The Holly Leaved Evergreen Shrub. Has large spiny, metallic looking leaves which turn bronzy-red in fall. Large, spike-like clusters of attractive yellow flowers are borne in spring, followed by purple-black fruit in June and July. Grows to an ultimate height of 2½ to 3 feet, depending upon location. Does exceptionally well in shaded areas. Hardy, easy to grow shrub; well suited for group planting, as single specimens, for borders or among other evergreens. The ornamental foliage is excellent for cutting. **Selected 8-10 in., \$1.50 each; 2 for \$2.75; 4 for \$5.25, postpaid.**

SMOKE TREE (PURPLE FRINGE)

1398. Huge clusters of misty blooms make this shrub look like a "puff of smoke" when in full bloom. Flowers are long-lasting and make a beautiful display during late summer. Ours is the hardy variety that can be grown in the north. Grows 6 to 8 feet tall and 6 feet wide. Marvelous for back-ground planting and as individual specimens. A most unusual shrub.

Emlong's Hardy Large Flowering CLEMATIS

Without doubt one of the most attractive and beautiful flowering vines. Blooms profusely in early summer, followed by some blossoms throughout the fall. Unequaled for porch and trellis planting.

JACKMANI. 1502. Large purple flowers; make a striking contrast against the handsome rich green foliage.

BARON VEILLARD. 1504. Lovely pink blooms flower profusely on this hardy climber.

MAD LE COULTRE. 1506. Glistening, pure white blossoms. Strong, vigorous grower.

VILLE DE LYON. 1508. Showy red flowers. Makes a gorgeous display of color.

GARDENIA VEITCHI

2070. (*Cape Jasmine*) Enjoy this exquisite flower indoors or out; on terrace or in sunroom, it brings a touch of exotic beauty to any setting. The flowers are creamy-white, large and of waxy texture; surrounded by luxuriant, rich dark green foliage. One of the most popular, fashionable flowers — unequalled for its rich perfume; unexcelled for corsages. A plant you will enjoy the year around. 3 in. pot plants, \$1.25 each; 2 for \$2.40, postpaid.

GOLDEN CHAIN TREE

(*Laburnum Vossii*)

1264. Flowers of purest golden-yellow are borne in long graceful clusters, 12 to 18 inches long, during spring. Easy to grow. Large, clover-shaped foliage makes it attractive in all seasons. Usually blooms the first year after planting and increases in beauty year after year, with little care.

← MOUNTAIN ASH

Gorgeous Ornamental Tree

1222. Grows to a height of 40 feet, forming a dense, thick head. In spring the tree is covered with white flowers, followed in late summer by massive clusters of brilliant orange berries, which literally bend the branches with their load. The berries remain on into winter, prolonging the attractiveness of this splendid tree. The narrow leaves, which are pinnate in shape and arranged on frondlike branches, are a striking contrast to the flashy berries and smooth brown bark. Hardy; does well in northern states and will thrive in any soil with very little care.

If you desire a sparkling, colorful display in your yard from early spring right through fall and winter, plant Mountain Ash now! You will enjoy its beauty and comforting shade for years to come.

SUNBURST LOCUST

(Plant Pat. No. 1313) 1294. Now for the first time we can offer the newest of shade trees — **New Sunburst Thornless Locust**. So called because 8 to 10 inches of the branch tips are covered with brilliant golden bronze foliage. The trees are more disease resistant than the common Locust. It has excellent branching habits; it is symmetrical and broadly pyramidal. Hardy, long-lived trees that will grow in a wide range of soil and climate. Extremely beautiful planted as a specimen in your garden or lawn. One tree will dominate your garden — yes, even your neighborhood. So be the first to have this beautiful new tree . . . Order today.

REDBUD

(*Cercis Canadensis*)

1280. Also known as Judas-Tree. In early spring, large clusters of glowing rose flowers cover every branch and twig. After the spring blooming season, large, healthy, heart-shaped leaves appear. A graceful, small ornamental shade tree growing to a height of about 20 ft. It grows with very little care. Lovely for lawn specimens and in shrub borders, producing a breathtaking display every spring. Extremely decorative and highly recommended from every standpoint, since it is adaptable to a wide variety of soils.

→ TREE WISTERIA

Increases in Beauty Year after Year

No lovelier sight can be imagined than a tree Wisteria in full bloom. Bears great profusions of large racemes of charming, pea-shaped flowers somewhat resembling a bunch of grapes in size and form. Flowers are produced by the hundreds and completely cover the tree during May. When in bloom, the tree is a thing of sheer beauty. Once planted, the tree increases in beauty each season. On the lawn, the tree develops into a beautiful specimen and lives for generations. Easy to grow from coast to coast excepting in the very coldest states. Trees grow 6 to 8 feet tall at maturity. Choice of colors: 1292, **Purple** (the most popular color); 1290, **Pink** (very rare and unusually beautiful.) (Balled in Peat.)

	Each	2

MAGNOLIA NIGRA. 1270. Large, Lily-like flowers of dark purplish-red and attractive, rich waxy green foliage. One of the first trees to bloom in spring. Trees grow 12 to 15 feet tall. 2-3 ft. trees, branched, balled in peat, \$4.25 each; 2 for \$8.25, postpaid.

➡ Lovely CRAPE MYRTLE

The plant which is so much a part of southern beauty is now available in hardy form for those of us in northern climates. It dies down to the ground each winter in the north, but throws up new shoots each spring and flowers in the summer. Has attractive flowers with fringed petals; borne in panicles. The beautiful large flower heads bloom over a long period in the hot summer months, when flowers are so welcome. Has attractive glossy, deep green foliage. Will grow in any good garden soil; prefers full sun. Plant 3 feet apart for borders. **Choice of colors: 1352 Watermelon Red, 1348 Coral Pink, 1350 Royal Purple.** 18-24 in. 2-yr. field grown bushes, \$1.00 each; 2 for \$1.95; 4 for \$3.75, postpaid.

CORKBARK BURNING BUSH ➡

(*Euonymus Alatus Compactus*) 1338.

A very unusual shrub that attracts attention wherever seen. Produces small yellow flowers in spring, followed by red fruits. Oval-shaped green leaves turn a brilliant coppery crimson tinged rose, in the fall. Has an unusual corky bark. Thrives in sun or shade. Its compact growth and easy culture make it one of the outstanding shrubs for single specimens on the lawn, in shrub border or among evergreens. 2-yr. field grown plants:

BUTTERCUP SHRUB ◀ (POTENTILLA MOONLIGHT)

1442. An impressive shrub that grows in an irregular small mound about 2 to 2½ feet high covered with a mass of small fern-like leaves. It is studded with intensely brilliant golden-yellow, Buttercup-like flowers from June until October. It does best in full sun. Very hardy. This charming shrub can be used in front of shrub border or in foreground of perennial plantings. Also an excellent shrub for a low hedge or edging. A mound of green and gold all summer long.

Emblong's Hardy CARNATIONS

CARNATION BARGAIN 2121X

10 BEAUTIFUL
CARNATION
PLANTS, 2 each
of the five varieties
listed for only

\$3.25
Postpaid
No Discount

The lovely perennial Carnation Grenadin comes in 5 beautiful colors:

- 2110. **Golden Sun**, glowing yellow.
- 2112. **Ruby**, deep maroon red.
- 2114. **Purity**, pure white.
- 2116. **Scarlet Prince**, bright scarlet crimson.
- 2118. **Triumph**, lovely deep pink.

For a riot of color and an abundance of flowers all summer and at intervals through fall, plant in solid beds, borders or in groups. The flowers come single, semi-double and double on the same plant at different times of the season. These Hardy Carnations are rapidly gaining in popularity everywhere because they are lovely in the garden and fine for cutting. Grow 18 to 20 inches tall. The flowers are delightfully fragrant. Grow in ordinary light, well-drained soil. Plant 12 inches apart in early spring. Plants are hardy but should be protected lightly during the winter to prevent alternate freezing and thawing. 50c each; 2 for 90c; 5 for \$1.98, postpaid.

▲ MT. SHASTA DAISY

2034. Beautiful new double-flowering Daisy that will add distinction to your garden. Pure white blooms with high tufted center and a double row of overlapping guard petals which enhances the beauty of this fine double Daisy. Flowers are produced in abundance from spring until freezing weather. Flowers come singly on tough, wiry 24-inch stems. Always showy in mass plantings and equally desirable as cut flowers. Plants are very vigorous and a great improvement over older varieties. 60c each; 3 for \$1.75; 5 for \$2.65, postpaid.

New Everblooming BLEEDING HEART "BOUNTIFUL" ➤

2201. (Plant Pat. No. 1198). A remarkable new hybrid, somewhat resembling Plumy Bleeding Heart, but much superior in size and abundance of flowers. Blooms in early May, producing as many as 30 to 40 flower stems on a 2-year established plant. Throughout summer some flowers are produced, and in early autumn the plant blooms again as freely as it did in early spring. The lovely fuchsia-red flowers are borne on stalks 18 to 20 inches tall. Handsome blue-green foliage forms a clump 18 inches in diameter. Perfectly hardy; does well in any well-drained soil. Prefers a sunny location. Be sure to include this new, superior Bleeding Heart in your spring planting — the results will delight you. \$1.25 each; 3 for \$3.50; 6 for \$6.50, postpaid.

Creeping ... Dainty COLORFUL **Phlox** Phlox Subulata

Masses of dainty, colorful flowers completely cover the plants all through early spring, hiding the attractive moss-like evergreen foliage. A perfect plant for terraces, banks, borders, walk edgings, the rockery; also invaluable for carpeting bare spots. Grows scarcely 4 inches tall. The moss-like foliage stays green all winter. Hardy, easy to grow. Plant 1 foot apart each way to make a dense ground cover in a short time. Soil should be dry and sandy and not too rich. Should be planted in full sun. It is one of the most beautiful of the low creeping plants. Your choice of colors:

- 2180. **Alba**, pure white.
- 2182. **Laphami**, beautiful lilac blue.
- 2184. **Moerheimi**, charming pink.
- 2186. **Atropurpurea**, deep carmine red.

DWARF FIRETHORN

1435. (Pyracantha Angustifolia) Beautiful ever-green shrub that is valuable for many purposes in the landscape plan. Has long slender branches and narrow green foliage, forming a dense bush. White flowers bloom in May. In fall, great quantities of bright orange or brick-red berries appear and remain on the branches late into winter. For a low, colorful hedge it is one of the best. Hardy and adaptable to many locations. Perfect for color contrast among other plants in foundation or border planting. **2-yr., field-grown plants, \$1.95 each; 2 for \$3.75; 4 for \$6.95, postpaid.**

RED CORALBERRY

1428. (Improved Chenaulti Indian Currant) If you want to attract songbirds to your garden, here is the plant that will do it! A superabundance of brilliant, coral-red berries thickly clustered along the slender arching branches, appear to great advantage against the attractive, green foliage. The berries remain through most of the winter. Delicate pink flowers appear in spring. Grows 3 to 4 feet tall and makes a most desirable plant for hedges, foundation, corner groups or shrub border. Will succeed in sun or shade, and any good garden soil. As many as 53 species of birds have been known to feed on the berries.

RED LEAF PEACH

1278. Bright red foliage appears early in the spring, changing gradually to deep maroon towards fall. Fragrant, deep-rose blossoms contrast beautifully with the colorful foliage. This sensational tree produces a full crop of small, perfectly round edible Peaches, about 1½ inches in diameter. The Peaches are especially fine for pickling — flesh is white and has a delicious, sweet flavor. Fruits have an over-all red color, lightly spotted. Ripen quite late. Try a planting this spring.

Tree Hydrangea

colorful Ornamental Trees

FAASSEN Red Leaf MAPLE

1210. This unusual tree will afford such a definite and striking contrast to your other plantings of shade trees that passers-by will stop and gaze. The foliage is of excellent texture; being deep red in color when it first appears, but becomes much darker as the season progresses until it is almost blackish-red. The contrast is breathtaking. Trees are perfectly hardy and retain their magnificent leaf color throughout the entire summer. The shape of the tree is excellent — compact and will grow into a fine shade tree. A superb tree for lawn, small or large, street trees or specimens for contrast among other trees. Complete your lawn with one or more of these outstanding trees for refreshing shade as well as colorful beauty. Supply limited. Order today.

Japanese Red Maple

Kwanzan Flowering Cherry

Double Flowering Dwarf Crab

JAPANESE RED MAPLE

1274. A colorful small shrub or dwarf tree that seldom grows more than 10 feet tall. The dense foliage of indented leaves are unrivaled for brilliancy and charm. Their early spring and midsummer color is a vivid blood-red which dulls to a bronzy purple-red towards fall. Bright sun contributes to deep and richly colored foliage. Its slow growth makes it a splendid foreground subject in mixed groups and are unexcelled for their bright spot of color on the open lawn. They will make a handsome display no matter where you put them. You will be delighted with the effect achieved by adding this colorful tree to your planting this spring.

	Each	2
12-18 inch	\$4.45	\$9.50

ROSE TREE of CHINA

1284. (*Prunus Triloba*) A handsome, old-fashioned shrub-like tree that should be included in every garden. Very double rose-like flowers hug every branch so heavily that no wood is visible in early May before the leaves come out. Blooms are bright pink and make a lovely display in early spring. Very hardy; grows to a height of 8 feet.

Sycamore

Shade Trees for Lasting Beauty

New SKYLINE LOCUST

1219. A stately and unusual variety of Locust with distinctive upright form. Growth rate is rapid. It develops an exceptionally strong, sturdy trunk and shapely crown without being staked or specially trimmed. Branches are uniformly spaced and arranged, resulting in a well-filled tree of rather formal appearance. The leaves are dark green and of a heavy, leathery texture. An added touch is the reddish-bronze cast which characterizes the emerging leaves. This combination of good features will make this a "Number 1" tree for all landscaping purposes.

Lombardy Poplar

RED MAPLE

1215. (Acer Rubrum) This magnificent native tree lends great beauty to the landscape in all seasons. The upright branches form a narrow crown and are clothed with green, red-stemmed leaves. In fall, the leaves assume a red-orange color, equal in brilliancy of the Japanese Maple. Its outline is quite picturesque in winter. An attractive tree which can be planted as a street or lawn specimen where good form and shade are needed. It grows well in many environments.

	Each	2	4
4-5 ft. branched....	\$3.95	\$7.70	\$14.95
5-6 ft. branched....	4.95	9.70	18.95

NORWAY MAPLE

1212. Large, handsome Maple with broad, rounded head. Considered by many the best all around shade tree. Dense, rich green foliage remains long on the tree, turning yellow in the fall. Used extensively for lawn specimens and along streets, drives and parkways. A hardy, clean growing tree; attractive, symmetrical form. Approximate height at maturity is 40 to 50 feet.

	Each	2	4
5-6 ft. branched....	\$3.95	\$7.50	\$14.50
5-6 ft. whips.....	2.95	5.50	10.50

Red Maple

Schwedler Maple

Skyline Locust

SILVER MAPLE

1216. One of the fast growing shade trees that thrives on all kinds of soils and in hot or cold climates. Finely cut leaves are green on top, silvery underneath, turning to gold in autumn. Makes a graceful head. Well branched, well rooted specimen trees, reaching a height of approximately 60 ft. at maturity.

6-8 ft. branched.....	\$2.95	\$5.50	\$ 9.95
8-10 ft. branched.....	4.25	8.25	15.95

SCHWEDLER RED MAPLE

1214. One of America's finest shade trees. Beautiful in spring, summer and autumn. The spring foliage is reddish purple, turning to bronzy-green in summer and bright golden yellow in autumn. Very desirable for lawn specimen planting; also valuable for any landscape location where bright color accents are wanted. Grows 40 to 50 feet tall.

HUGE *Football* MUMS

The great improvement in large blooming Mum varieties enables us to offer garden varieties that compare equally in size with greenhouse varieties and the range of color is much wider. These world famous varieties that we offer produce huge exhibition blooms and should be disbudded to one bloom per stem, having several stems on each plant.

These varieties are carefully selected for their beautiful colors, large size flowers, and early blooming habits. The blooms are huge, of fine texture and will provide beautiful long-stemmed bouquets throughout the fall months. Flowers are up to 7 inches across, not the small 2-inch flowers you are accustomed to seeing on ordinary Mum varieties. Propagating rights reserved.

CAPTIVATION. 2273. Huge blooms of amber white. The decorative flowers are borne on strong stiff stems making this an excellent variety for cutting.

CONSOLATION. 2274. Double incurving blooms of rose pink. Plant compact; strong, straight stems. Excellent cutting variety.

EXPLORER. 2276. Large, incurving blooms of deep purple, silver reverse. Bush compact, medium height.

FREEDOM. 2278. Extremely double, deeply reflexing blooms of pure white. The huge, 5 to 6 inch, blooms are borne on upright stems. Plant vigorous and frost resistant.

HIS LORDSHIP. 2280. Ball shaped, incurving blooms of rich red with deep bronze reverse. Blooms 4 to 6 inches in diameter.

PROSPEROUS. 2282. Very large, light lemon yellow incurving blooms. Very free flowering.

REFRESHING. 2284. Cactus type blooms of golden bronze. The huge, 5 to 7 inch blooms are borne on vigorous, bushy type plants.

SYMPATHY. 2286. Reflexing blooms with lovely pointed petals of light pink with a salmon overlay.

UNITY. 2288. Huge blooms of orange rust with light buff reverse. The 5 to 7 inch blooms are of incurving form produced on large, vigorous plants.

VIVACIOUS. 2290. Huge, pointed-petaled blooms of royal purple. Upright, vigorous plant of medium height. Very free flowering.

95c each; 2 for \$1.85; 4 for \$3.60, postpaid.

All-America MUMS

1st Winners in the AAMS Test Gardens

Now — for the first time, you can have All-America Mums — the first Winners in the test gardens of the All-America Mum Selection! This organization of Mum experts has been set up on a competitive basis to determine the NEW CHAMPION MUMS for America each year. Each entry is tested for two years and scored impartially. The winners for 1958 and 1959 are:

CRIMSON LADY. 2291. (Plant Pat. Applied For) 1959 Award Winner. Very double flowers, each 3 inches across, are a sparkling, deep, rich red. Compact, shapely plant.

GIRL FRIEND. 2293. (Plant Pat. Applied For) 1959 Award Winner. Pleasing shades of peach, coral and pink. Attractive 4-inch blooms of a reflex decorative type.

FLAIR. 2295. (Plant Pat. Applied For) 1959 Award Winner. Very double and perfectly formed blooms of a lively lavender. Flowers measure 3½ inches in diameter.

BURNING BRONZE. 2292. (Plant Pat. Applied For) 1958 Award Winner. Tangerine, bronze and orange medley — a spirited splash of fall colors. Wonderful for cutting.

EMPEROR. 2294. (Plant Pat. Applied For) 1958 Award Winner. Double blooms of bright bronze buds with orange tints turn into the sunniest of yellow — clear and rich.

RUBY KING. 2296. (Plant Pat. Applied for) 1958 Award Winner. Best dark red cushion. Brilliant red flowers cover a shapely, low-growing plant. Sensational!

SHOWPIECE. 2298. (Plant Pat. Applied For) 1958 Award Winner. Rich, sparkling royal rose with silver-mist centers and reverse. Huge flowers are full and shapely.

\$1.50 each; 3 for \$3.75, postpaid.

Pink Lythrum

Plant Emblong's PERENNIALS

PAINT YOUR GARDEN WITH COLOR

PINK LYTHRUM

2066. An excellent summer flowering perennial. The plant grows to height of 3 feet with flower spikes 12 to 18 inches long, making a very showy display. Each plant bears dozens of spikes covered with bright pink flowers, held proudly above the dense foliage, through late summer. Fine for shaded areas and around pools. Does well in dry weather, but comes into perfection in a moist location. Very substantial and easy to grow; will thrive in ordinary garden soil. Very hardy. A fine cut flower and very effective in bouquets. **60c each; 3 for \$1.65, postpaid.**

Foxgloves

HYBRID FOXGLOVES

2046. Beautiful "wedding-bell" flowers in a wide range of solid and two-tone colors, with dotted throats. Flower heads are 2 to 3 feet long, thickly clustered with large bell-shaped blossoms. For continuous bloom, nearly all summer, cut off old stems when flowers fade. A mass planting in beds or border will produce a truly charming effect. They may also be used for a shady border or woodland garden. **50c each; 3 for \$1.35, postpaid.**

DAINTY PINK CORALBELL

2048. (Heuchera) Charming coral-pink, bell-shaped flowers produced on wiry stems 2 feet tall. The plant forms a mound of geranium-like leaves close to the ground, from which the stems arise carrying the blossoms in graceful panicles. An ideal cut flower and border plant. Blooms from May until September. **60c each; 3 for \$1.65, postpaid.**

BLUE MOON ASTER

2080. (Stokesia) Immense, 5 to 6 inch flowers of exquisite light blue are borne on upright, stiff stems 12 to 18 inches in height. It is of easy culture and flowers throughout the summer and autumn until stopped by a hard frost. Will thrive in sun or partial shade; easy to grow. An excellent plant for forepart of the border. Vigorous growing and free flowering. **50c each; 3 for \$1.35, postpaid.**

COLORFUL VIOLAS

2084. Often called "Hardy Pansies", these enchanting little blossoms appeal to all who love flowers. The plant grows 6 to 8 inches tall, will thrive anywhere, and blooms from early spring until frost. A perfect plant for low borders and for masses of color in the rock garden. Assorted colors only. **50c each; 3 for \$1.35, postpaid.**

ORANGE BUTTERFLY PLANT

2068. (Asclepias) Sweet-scented, 3 to 4 inch flat clusters of the brightest orange flowers you have ever seen. Attracts butterflies. The plant is dwarf growing and very hardy; withstands severe winters and hottest summers. Very free flowering from July to fall. A startlingly vivid and splendid color addition to the perennial border and for growing in front of shrubbery. Lovely for cutting. **50c each; 3 for \$1.35, postpaid.**

BLUEBIRD VERONICA

2082. The aristocrat of the perennials! The heavy flower spikes are completely studded with intense, lustrous deep blue blossoms. Blooms freely, providing a fine display from midsummer through fall. The sturdy, 12 to 18 inch flower spikes are fine for cutting and very effective in bouquets. This hardy plant is indispensable for the perennial border and a quantity of them should be included in every garden. **60c each; 3 for \$1.65, postpaid.**

WHITE FEVERFEW

2042. An attractive, medium tall plant. It has finely divided leaves and small, double white flowers on stems 12 to 18 inches in height. Bears a profusion of bloom throughout the summer. Will grow freely in ordinary well-drained soil. Plant one foot apart in sunny border. A group of these make a most effective display in border planting. The long-lasting flowers make lovely bouquets in themselves, as well as in combination with other summer perennials. **50c each; 3 for \$1.35, postpaid.**

White Feverfew

EVERBLOOMING

Tree Roses

Tree Roses are grown by budding the Rose on a stem trunk 40 inches above the ground, forming a bushy head at the top of this stem. The flowers produced are even larger and finer than those on regular Rose bushes. They bloom from spring until frost. Very effective in the garden, giving their fragrance and beauty at eye level. We offer only those varieties which bloom freely all season.

CHRYSLER IMPERIAL. 1810. Vivid crimson-red; richly colorful.
HELEN TRAUBEL. 1808. Varicored; light pink to luminous apricot.
PEACE. 1812. Cream-yellow; petals edged appleblossom pink.
MOJAVE. 1816. Glowing orange with tones of scarlet. Fragrant.
CRIMSON GLORY. 1804. Intense crimson mellowed by velvety nap.
ECLIPSE. 1818. Tapering buds open to brilliant golden yellow blooms.

\$6.25 each 2 for \$11.50 Postpaid

The Newest & Finest TREE ROSES

PINK PEACE. 1814. (Pat. Applied For) A terrific new Rose! Fat, shapely buds open to tremendous 6-inch blooms of deep, dusty pink — a perfectly charming color. Lingering fragrance, profusion of bloom and vigor add to its greatness.

KORDES PERFECTA. 1806. (Pat. No. 1604) Superb exhibition Rose. Basically cream-white, the petals are lined with pink and edges appear dipped in carmine. It's novel and beautiful!

Everblooming MINIATURE FAIRY ROSES

THE SMALLEST ROSES IN THE WORLD!

BABY GOLD STAR. 1722. (Pat. No. 407) The only true yellow Miniature. Fully double blooms of golden yellow all through.

CENTENNIAL MISS. 1720. (Pat. No. 1301) Rosy red with wine red shadings. Fully double. Blooms freely from spring through fall.

PINK JOY. 1724. (Pat. No. 1378) Lovely glowing pink with salmon-gold center. Enchanting in corsages and tiny bouquets. Fragrant.

PIXIE. 1726. (Pat. No. 408) The most double of all — 40 or more tiny petals to each tiny bloom! Pure white with blush-pink center.

SWEET FAIRY. 1728. (Pat. No. 748) Exquisite, fragrant blooms of appleblossom-pink. The 8 to 12 inch plants bloom from spring to frost.

RED IMP. 1729. (Pat. No. 1032) Each tiny bloom is a perfection of form and deep rich crimson color; non-fading and very double.

Your choice of above: **\$1.25 each, 3 for \$3.30, Ppd.**

New! MINIATURE TREE ROSES

Here are garden gems you'll want for this spring's planting! Imagine — a tiny tree (trunk is about 12 inches tall) crowned with a profusion of miniature roses and tiny foliage. They're enchanting! See illustration for comparative size of Miniature Tree and Miniature Rose Bush. We offer the following varieties:

BABY GOLD STAR. 1725. (Pat. No. 407) Rich golden-yellow.

RED IMP. 1723. (Pat. No. 1032) Unfading, velvety crimson.

SWEET FAIRY. 1721. (Pat. No. 748) Appleblossom pink.

HYBRID FRENCH

Lilacs

COLORFUL - FRAGRANT DOUBLE FLOWERS

Gorgeous French-type hybrid Lilacs will add beauty and distinction to your landscape planting. They bear immense flower panicles, 8 to 12 inches long, thickly massed with single and double florets that are richly fragrant.

French Lilacs make compact, shapely bushes. Do not sucker. Bear loads of flowers every spring. For lawn specimens, corner groups, shrub plantings and Lilac hedges, they are without equal.

CHARLES JOLLY. 1384. Double wine red.
PRESIDENT GREVVY. 1380. Soft blue-violet.
MOUNT BLANC. 1386. Snow white.
MARECHAL LANNES. 1382. Rich pink.

FIRETHORN

1434. (Pyracantha Lalandi) A remarkably beautiful berried shrub that retains its foliage all winter. Attractive large trusses of pure white flowers bloom in May, followed by an abundance of brilliant orange-scarlet berries which densely cover the bush, making it a gorgeous "mound of flame!" The berries remain late into winter, prolonging the beauty of this colorful shrub. Very hardy and vigorous growing; it is perfect for foundation planting where soil is dry. Grows 4 to 6 feet tall. Ideal for hedge or border plantings. **2 Yr., 12 to 15 in. plants, \$2.25 each; 2 for \$4.25; 4 for \$7.95, postpaid.**

distinctively different TREES & SHRUBS

GOLDEN MOCK ORANGE

1414. One of the "showiest" of all flowering shrubs, because of its all-season golden yellow foliage. The flowers are intensely white and have a delightful, delicate fragrance. Grows 4 to 5 feet tall and thrives everywhere — even in smoky, dusty places. We highly recommend this colorful shrub for every garden. **12-15 in., Field-grown Plants, \$1.95 each; 2 for \$3.75, postpaid.**

DAPHNE CNEORUM

1444. Captivating, deliciously fragrant plant of dwarf, spreading habit. Dense, slender foliage is practically evergreen. From early spring to May the plant appears as a low pink mound — with its great profusion of fragrant, rose-pink blossoms. Blooms again in early autumn. As an edging plant in front of evergreens and shrubs, it is unequalled. Valuable too, as a low hedge along garden walks and around flower beds. **Strong, 8-10 in., plants, \$2.50 each; 2 for \$4.25; 4 for \$8.25, postpaid.**

Fragrant HARDY VIBURNUMS

JUDDI. 1419. An outstanding new origination of Arnold Arboretum. This highly rated, improved variety is similar to Viburnum Carlesi. The plant is slightly smaller, but has larger flowers and the leaves are a darker green in color. The light pink, sweetly scented flowers are a delightful addition to the outdoor living room. **12-15 in., field grown Plants, \$2.95 each; 2 for \$5.65, postpaid.**

BURKWOODI (Gardenia-Scented Snowball) 1418. Has the hardiness, rapid growth, beautiful foliage and general dependability of the family, plus a new loveliness of bloom and gardenia scent. Lovely waxy, bluish-white flowers are borne in ball-like masses. Grows 3 to 4 feet tall. **12-15 in. Field Grown Plants, \$1.95 each; 2 for \$3.75; 4 for \$7.25, Postpaid.**

CARLESI. (Fragrant Pink Snowball) 1417. One of the most popular and widely planted spring flowering shrubs. Blossoms of delicate pink are so fragrant they perfume the entire yard. Attractive dark green foliage turns bronzy-red in fall. Grows 5 to 6 feet tall; thrives in sun or semi-shade. **12-15 in. Field Grown Shrubs, \$1.95 each; 2 for \$3.75; 4 for \$7.25, Postpaid.**

SUNBURST SHRUB

1378. (Hypericum Hidcote) From a famous estate in England comes this new variety of Hypericum. The bright golden yellow flowers, 2 to 3 inches in diameter, are produced in profusion during the spring months and again in summer. This beautiful shrub deserves a prominent place in every garden. Has dense, leathery, green foliage. **Select 2 yr., field-grown Plants, \$1.95 each; 2 for \$3.75; 4 for \$7.25, postpaid.**

BLUE HYDRANGEA

1374. (Nikko) This is the new hardy strain of Blue Hydrangea which has immense flower heads, 6 to 12 inches across, lasting for many weeks. In ordinary soil the flowers are pink, but in acid soil they are blue. A deeper blue can be maintained by applying aluminum sulphate during growing season. Grows 3 to 4 feet tall. Large, broad leaves remain attractive until late fall. The plant does best in semi-shade. Provides interesting contrast among other shrubs in foundation planting or border.

COLORADO BLUE SPRUCE

1020. One of the most highly prized Evergreens. Valued for its symmetrical shape and glistening, silvery blue-green foliage. It gives year 'round beauty to the landscape. Our trees are grown from select Blue Spruce seed but do not show blue to any extent until trees are 2 to 3 feet tall. The variable foliage color is highly decorative at all times; as a specimen tree it is one of the best. Grows to considerable size and should be used with discretion in foundation planting.

SNOWFLAKE MOCK ORANGE

1420. New Fragrant Double Mock Orange. Lovely double flowers of pure white and sweetly fragrant, are borne in large clusters. Blooms freely in June and July and occasionally thereafter. Grows 6 feet tall; good upright habit. Has bright green foliage which is attractive all season. Combine with other shrubs in foundation planting; also makes a beautiful tall hedge or screen. Grows in sun or semi-shade.

FORSYTHIA LYNWOOD GOLD

1356. This richly colored new Forsythia originated in Ireland, and not only blooms more profusely but the individual flowers are better and fuller in form. The branches are erect and solidly covered with brilliant golden yellow flowers from top to bottom, in early spring. Grows 5 to 7 feet tall. For a magnificent show in early spring, plant Lynwood Gold Forsythia.

MISTY BLUE SPIREA

1408. (Caryopteris) The exquisite new Blue Spirea. A cloud of fringed, powder-blue flowers cover the low, rounded shrub from August through fall. Grows 2 feet tall, making a perfect mound about 2 feet in diameter. Has attractive silvery green foliage. Ideal for flower border or foreground of shrub plantings. Especially desirable because it blooms late when most other shrubs are through. Perfectly hardy and easy to grow. Cut off old tops in spring as new canes come up from the ground. **12-15 in., field-grown Plants, \$1.00 each; 2 for \$1.95; 4 for \$3.75, postpaid.**

Sunburst Shrub

NEW! Spectacular CLIMBING ROSE

SPECTACULAR. 1708. (EVERBLOOMING) Pat. No. 565.
 When you see this grand new Climber in full bloom, you'll know why it was named Spectacular. That's just what it is — a spectacular, living drapery of glorious color! Scarlet buds open to fully double, orange-red blooms that are unequalled for brilliance of color. Grows 10 feet tall, bearing profuse clusters with 3 and 4 blooms on a stem. Glossy green foliage serves as a perfect background for the 4-inch blooms. A lusty grower, sending new shoots up from the bottom each year to provide a constant source of new bloom. **\$2.50 each; 3 for \$6.60, postpaid.**

CLIMBING CHRYSLER IMPERIAL

1710. (EVERBLOOMING) Pat. No. 1528. Velvety maroon buds open to iridescent shades of red, which deepen and become more brilliant as the blooms fully open. A vigorous Climber, producing an abundance of lovely Roses all season long. Dark green, disease-resistant foliage. **\$2.75 each; 3 for \$7.20, postpaid.**

CLIMBING GOLDEN SHOWERS

1714. (EVERBLOOMING) Pat. No. 1557. AARS Winner for 1957 — the first Climber to have this distinction. Glamorous, golden-yellow, 4 to 5 inch blooms are produced in great quantity all season. Handsome, leathery, glossy foliage. It's outstanding on trellis, fence, pillar, anywhere! **\$2.75 each; 3 for \$7.20, postpaid.**

CLIMBING TALISMAN

1712. (EVERBLOOMING) Orange - yellow buds open into large blooms of salmon-orange shaded with red and gold. Very striking on fence or trellis, and for framing a doorway or picture window. Very fragrant, long-stemmed blooms. **\$1.50 each; 3 for \$3.95, postpaid.**

Climbing Talisman

CLIMBING CRIMSON GLORY

1704. (EVERBLOOMING) Pat. No. 736. Rich, crimson color, perfect form, fascinating fragrance plus vigor and profusion of bloom, make this one of the outstanding red Climbers. Large, high-centered blooms on strong stems make a perfect cascade of color over the long blooming period. Spectacular in any location. **\$2.50 each; 3 for \$6.60, postpaid.**

CLIMBING DR. J. H. NICOLAS

1706. (EVERBLOOMING) Pat. No. 457. Very large, very double flowers of deep rose-pink are produced in great profusion in June, then intermittently all summer. Each long stem carries 3 or 4 perfect blooms, with delightful, rich fragrance. A sturdy, vigorous Climber; easy to grow and requires little care. **\$2.00 each; 3 for \$5.25, postpaid.**

CLIMBING ETOILE DE HOLLANDE

1716. (EVERBLOOMING) Destined to become as popular as the long-time favorite bush form! Gorgeous big, vivid red flowers make a glorious show over a long blooming season. A rapid growing Climber, vigorous and hardy. Excellent foliage of rich green color. **\$1.50 each; 3 for \$3.95, postpaid.**

CLIMBING SNOWBIRD

1718. (EVERBLOOMING) We consider this one of the very best white Climbers. Dainty, perfectly shaped buds and blooms of glistening, snow-white are produced in succession all season. Charming fragrance. Plant it in combination with one of the red Climbers for a perfectly stunning effect. **\$1.50 each; 3 for \$3.95, postpaid.**

BLAZE → Everblooming Climber

1702. Very double, blazing-red flowers are produced in large clusters over a long blooming season. Makes a magnificent display — with thousands of 2 to 3-inch blooms on just one plant! Hardy, vigorous and reliable. Grows to a considerable height. Will succeed in all sections of the country. Makes a spectacular, living fence! Use it wherever radiant color is desired. **\$1.50 each; 3 for \$3.95, postpaid.**

Everblooming Hybrid Tea ROSES

COUNTESS VANDAL. 1604. The most artistically colored of all Roses — copper, bronze and pink flooded with gold and reflexed with silver. Widely used for exhibition and table arrangements.

CRIMSON GLORY. 1606. Well-formed flowers of an intense, deep vivid crimson shaded oxblood-red and mellowed by a soft velvety nap; produced in abundance all season. Excellent foliage.

ECLIPSE. 1608. The best all-purpose yellow Rose. Slim, tapering buds open into brilliant golden-yellow 4-inch blooms. The plant is strong growing; blooms continuously all season.

EDITOR McFARLAND. 1610. Richly fragrant flowers of clear, brilliant pink. Noted for its perfection of form and long lasting quality. Plant is healthy, vigorous and free-flowering.

ETOILE DE HOLLANDE. 1612. Richly fragrant, deep crimson blooms of excellent form, on long cutting stems. A great favorite and worthy of a place in every Rose garden. Vigorous; medium tall.

DUQUESA DE PENARANDA. 1614. Slender buds of apricot-orange open to exquisite blooms of coppery apricot; sweetly perfumed. Blooms generously all season. Long lasting; excellent for cutting.

REX ANDERSON. 1616. Perfectly formed blooms of lovely ivory-white contrast dramatically with the rich green, healthy foliage. An outstanding exhibition Rose. Vigorous, upright grower.

PRESIDENT HOOVER. 1618. A glorious combination of cerise-toned orange, scarlet and yellow. Long, reddish buds; flame and yellow flowers. Large, exquisite; fragrant and free blooming.

TEXAS CENTENNIAL. 1620. A large Rose of excellent quality. Brick-red with glints of gold; center lighter red, toning to deep pink with age. Bush is large, vigorous and strong grower.

THE DOCTOR. 1626. Sparkling pink, and one of the largest of Roses — 5 to 6-inch blooms. Color is a uniform silvery-pink in bud and open flower. Healthy, vigorous plant.

EMLONG'S EVERBLOOMING

**AARS
WINNERS**

Hybrid Tea Roses

CHRYSLER IMPERIAL (Plant Pat. No. 1167)

1652. Newest of the red Roses. An exciting, rich, vivid crimson-red enhanced by vibrant overtones of dark oxblood red. The long tapering buds open to very large blooms with 40 to 50 wide petals, symmetrically arranged. The bush is compact with abundant dark green foliage. Blooms continuously from spring to fall. Very free flowering. The 1953 AARS Award Winner. **2-yr. No. 1 bushes, \$2.50 each; 3 for \$6.60, postpaid.**

HELEN TRAUBEL (Plant Pat. No. 1028)

1658. Unusually long, graceful buds open to very large flowers of good form, fine substance and pleasing fragrance. Color varies from sparkling pink to luminous apricot, sometimes orange. The plant is exceedingly vigorous; good grower; free bloomer with excellent foliage and habit. The large bush, 3 to 5 feet tall, is alive with blooms all season long. **2-yr. No. 1 bushes, \$2.75 each; 3 for \$7.20, postpaid.**

WHITE KNIGHT (Plant Pat. No. 1359)

1680. All-America Rose Selections Award Winner for 1958. This superb new Rose is the only White Hybrid Tea ever to win this honor! Magnificent 5-inch blooms of pure white, satiny beauty; bloom freely and continuously; retain their purity of color until the petals drop and do not "ball" in damp weather. The plant is vigorous, bushy, upright; grows to 3 feet and more; has moderately thick foliage of lively green color. **2-yr. No. 1 bushes, \$3.00 each; 3 for \$7.95, postpaid.**

TIFFANY (Plant Pat. No. 1304)

1662. A beautiful phlox-pink Hybrid Tea producing blooms of outstanding quality. Long-pointed buds are deep pink, with golden yellow shading at the base of the petals. They open to perfectly formed, double, high-centered, fragrant blooms of a pleasing shade of pink, with petals of heavy texture. Upright, vigorous; beautiful dark foliage. Flowers are long lasting and are produced singly on long, strong stems. **2-yr. No. 1 bushes, \$2.50 each; 3 for \$6.60, postpaid.**

PEACE (Plant Pat. No. 591)

1668. Winner of All-America Rose Selections for 1946. The ovoid buds are golden yellow etched with pink. As they open, they change from canary-yellow to pale gold, to iridescent cream. The deeply veined, rolled petals are edged with apple blossom-pink that deepens as the glorious 5 to 6-inch blooms slowly open. No two blooms are exactly alike. The large blooms are carried on heavy-erect stems. Delicate fragrance. Attractive holly-shaped foliage. Hardy, vigorous and disease resistant bushes growing to a height of about 4 ft. Blooms continuously and abundantly until frost. **2-yr. No. 1 bushes, \$2.50 each; 3 for \$6.60, postpaid.**

MOJAVE (Plant Pat. No. 1176)

1660. Winner of the only 1954 All-America Award for a hybrid tea. Mojave takes its name from the famous California desert, and the name fits perfectly. Its rich coloring is typical of a desert sunset — glowing orange shot with flame-like tones of scarlet and vermilion. The beautiful tapering buds open to big, pleasantly fragrant, richly colored flowers. The blooms are large and double with about 25 petals. The tall upright plant is covered with huge, glossy foliage. Nearly every beautiful bloom is borne singly on a long, straight stem. **2-yr. No. 1 bushes, \$2.75 each; 3 for \$7.20, postpaid.**

2 TOP *Everblooming Patented* HYBRID TEA SELECTIONS

PINK PEACE

1654. (Pat. Pending) A direct descendent of Peace. The flowers are very large, deep, dusty pink borne one to a long stem. The fine pink color is retained for the life of the flower and it has a strong pleasant perfume. Exceptionally free and vigorous foliage. Best of all, the blooms are produced in glorious succession until frost. \$3.00 each; 3 for \$7.95, postpaid.

KORDES PERFECTA

1656. (Pat. Pending) Heavily scented very double flowers. The basic color is cream white lined with pink as the edges of the petals seem to be dipped in carmine. This deeper color spreads throughout as the flower opens to a most pleasingly unusual combination of pink and white with a suffusion of yellow. Glorious blooms—a full 5 inches! \$3.50 each; 3 for \$8.40, postpaid.

FLORIBUNDA ROSES

Masses of Color for Borders, Beds, Hedges & Gardens

INDEPENDENCE. 1760. (Plant Pat. No. 1036) Huge, vivid orange-scarlet blooms with an old fashioned rose fragrance. Blooms measure up to 4 inches in diameter, in clusters of 6 or more. The bush grows from 2½ to 3 feet in height producing quantities of rich glossy foliage. Non-fading in hot sun. **\$1.75 each; 3 for \$4.65, postpaid.**

RED PINOCCHIO. 1770. (Plant Pat. No. 812) Perfect buds of deep satiny carmine-red on the outside and brighter carmine on the inside open to 3½ inch Hybrid Tea-shaped blooms of clean red color. Large, long-lasting clusters that are unfading. Bush is upright, vigorous and free flowering. **\$1.75 each; 3 for \$4.65, postpaid.**

RUBY LIPS. 1774. (Plant Pat. Applied For) Rich ruby red. Perfectly formed buds open to large size blooms 3 to 4 inches across, borne in medium to large clusters all season long. Bush is compact and covered with dark green leathery foliage. A truly outstanding new introduction. **\$2.50 each; 3 for \$6.60, postpaid.**

PINOCCHIO. 1768. (Plant Pat. No. 484) Large clusters of gracefully pointed buds of rich salmon flushed with gold at the base open to long-lasting blooms of Hybrid Tea form. As the flowers open, they change to soft pink and shade into deeper pink at the edges. Glossy foliage; disease resistant. **\$1.75 each; 3 for \$4.65, postpaid.**

GREEN FIRE. 1778. (Plant Pat. Applied For) 1959 introduction. A new and fascinating color in Floribundas — unique yellow-green giving the appearance of green gold. Non-fading. The low growing bushes have an abundance of glossy foliage and are constantly clothed with a brilliant display of flowers. **\$2.50 each; 3 for \$6.60, postpaid.**

IVORY FASHION. 1752. (Plant Pat. No. 1688) 1959 All-America Award Winner. Slender buds of white with a touch of yellow slowly open into striking, high-centered cupped flowers — each one a full 4 inches across! Blooms exceptionally long lasting; Tea Rose fragrance. Bushes hardy and vigorous producing a breathtaking display all season. **\$2.75 each; 3 for \$7.20, postpaid.**

GRANDIFLORA ROSES

Very Hardy . . . Long Lasting Blooms

Excitingly new class of Rose. Combining the free-flowering and rugged hardness of the Floribundas with the long-lasting larger flowers of the Hybrid Tea Roses.

STARFIRE. 1754. (Plant Pat. Applied For) 1959 All-America Rose Selection. Rich red, long tapering buds opening to bright cherry red. Blooms both singly and in clusters. Flowers are of Hybrid Tea size and form. Plant is compact with bronze foliage; hardy. **\$3.50 each; 3 for \$8.40, postpaid.**

QUEEN ELIZABETH. 1776. (Plant Pat. No. 1259) 1955 All-America Winner! The color is a subtle blending of carmine-rose and dawn-pink; truly exquisite. **\$2.50 each; 3 for \$6.60, postpaid.**

MONTEZUMA. 1781. (Plant Pat. No. 1383) Vibrant scarlet-orange changing to a radiant salmon-orange in warm weather; large blooms of perfect form. **\$2.75 each; 3 for \$7.20, postpaid.**

GIANT HARDY NORTHERN GROWN *Pacific Hybrid* DELPHINIUM

The elegance and beauty of this marvelous new strain of Hybrid Delphinium almost defies description. Great stalks, 3 to 5 feet tall, bear enormous flower spikes heavily laden with individual flowers. Each flower is exceptionally large, 2 to 3 inches across, and perfectly formed. The blooms are single, semi-double and double. The colors are exquisite. Plant them in groups of four for best effect.

BLACK KNIGHT. 2122. Large flowers of the darkest royal violet shades. White bee. The individual blooms are beautifully formed and are of a remarkably rich color.

CAMELIARD. 2126. Clear, soft lavender with white bee. Very large, round florets of perfect form.

GALAHAD. 2124. Giant glistening pure white flowers with white bees. Florets often reach three inches in diameter and are heavily textured. Blooms are carried on 5- to 6-foot stems.

GUINIVERE. 2129. Light pink-lavender self with white bee. Excellent branching habits; beautiful large blooms. Long graceful spikes.

SUMMER SKIES. 2128. As beautiful as the name indicates. The blue is the blue of a summer sky and the white bees represent the fleecy clouds. The large individual florets are beautifully formed and carried on tall stiff stems.

59c each; 2 for \$1.09; 4 for \$1.98; 8 for \$3.69, postpaid.

GIANT CANNAS

THE PRESIDENT. 2360. Large, well developed flowers of a bright, glowing red. Blooms freely; makes an excellent showing from early summer until frost.

CITY OF PORTLAND. 2352. The flowers are rounded; the trusses nicely formed; the petals broad. The color is a bright, luminous pink. Lovely green foliage.

YELLOW HUMBERT. 2358. Large, showy blooms of golden yellow heavily flecked with red. The flower clusters are superb, contrasted with rich green leaves.

KING HUMBERT. 2356. Brilliant scarlet-orange flowers, of excellent size and quality. Purple-bronze foliage. Makes a striking display all summer.

RICHARD WALLACE. 2354. Beautiful large, well-formed flowers of golden yellow. Luxuriant deep green foliage. Grows 4 feet tall.

Dainty LILY-OF-THE-VALLEY

2064. Everyone loves these delightfully fragrant white flowers. The exquisite, tiny waxy-white, bell-shaped blossoms hang from bold, strong 10-inch stems. Attractive green foliage is ornamental all season. The plants are prolific growers and spread rapidly. If given reasonable care, a bed of them will produce beautiful flowers in abundance for a lifetime. They thrive in either sun or shade, wet or dry soil. **3 for 60c; 6 for \$1.00; 12 for \$1.75, postpaid.**

CALLA LILIES

A delightful and unusual summer-flowering bulb for your garden. Tall, stately plants with beautiful trumpet-shaped flowers, that you will grow with pride and pleasure.

PINK CALLA. (Rehmanni) 2730. The pink or rose Calla. Sweetly scented. A rare species of the Calla Lily family.

YELLOW CALLA. (Elliottiana) 2732. Deep golden yellow flowers are produced in abundance. Green foliage spotted white.

WHITE CALLA. (Alba Maculata) 2734. White blooms with crimson blotch at base. Spear-shaped leaves spotted silvery white.

IVORY CALLA. (Ethel Roosevelt) 2731. A rare variety producing pale yellow flowers; larger than Elliottiana. **79c each; 2 for \$1.49; 4 for \$2.79, postpaid.**

Giant Blooming PEONIES

FELIX CROUSSE. 2534. Brilliant ruby red with silky lustre. A strong grower and late bloomer. Very dependable. Free blooming.

EDULIS SUPERBA. 2532. Very dark rose pink (sometimes called light red). Flowers are full with high-tufted center. A tall, strong grower, very profuse bloomer. Very fragrant.

FESTIVA MAXIMA. 2536. White, with crimson markings in the center. Very large and full rose type. Early blooming; stalks strong and erect. Distinctive in color and form. A most desirable sort.

MONS. JULES ELIE. 2538. A beautiful silvery pink. Broad reflexing guards with a high pyramidal body of semi-quilled petals. One of the largest and handsomest sorts.

LOUIS VAN HOUTTI. 2540. A large garnet red Peony! A good performer, very free flowering, producing long stems, and is a good cut flower as well as garden variety.

SARA BERNHART. 2542. Apple-blossom-pink, very free flowering and blooms are of perfect form on graceful stems. An ideal cut flower.

PASSION FLOWER

2088. (Passiflora Carulea). Magnificent 4-inch flowers, pink with crown of purple and white. Emblematic of the Crucifixion. Plant is vigorous growing, tendriling climbing vine. Blooms from early summer to late fall. Grows 10 to 20 feet tall. Not hardy in northern sections; can be potted for indoor culture over winter. **75c each; 3 for \$2.10; 6 for \$3.95, postpaid.**

DECORATIVE OUTDOOR FERNS

Especially good in those cool, shady, problem spots. Ferns do well on the north side of the house or under trees. Valuable for locations where grass and flowers won't do well. Excellent for naturalizing; plants are not bothered by tree roots.

OSTRICH FERN. 2580. A luxuriant sturdy plant; for deep or partial shade.

MAIDEN HAIR. 2581. Thrives in shady spots. Height 1 ft.

SENSITIVE. 2582. Succeeds in sun or shade. Height 1 ft.

LADY. 2583. Finely cut fronds; does well in moist rich soil; sun or shade.

60c each; 2 for \$1.10; 4 for \$1.95, postpaid.

CAMPANULA

2025. Beautiful new perennial. Tall, erect growing. Unique cup-and-saucer shaped flowers are produced freely during May and June. Finely formed foliage and large flowers are very showy for background planting. **Assorted colors. 50c each; 3 for \$1.35, postpaid.**

ASTILBE

A brilliantly colored perennial with attractive, branched, feathery flower heads. This is one of the easiest Perennials to grow, as it is not particular as to soil. In June and July, exquisite 18-20 inch long, plummy wands of feathery character and brilliant coloring appear. As roots age, stems become more and more numerous and more flower plumes appear. Plant in full sun or in semi-shade. Blooms last over a long period, providing a vivid splash of unusual color in the garden. Specify color wanted.

FANAL. 2018. A feathery spike of intense, rich red. Blooms last over a long period.

GLADSTONE. 2017. Lovely pure white, strong growing and free flowering.

PEACH BLOSSOM. 2019. Beautiful dense, feathery plumes of light rose.
95c each; 3 for \$2.35, postpaid.

Sensational New "SUMMER LONG"

EVERBEARING PEACH

Fresh Peaches July to September

646. An everbearing Peach tree? That's right. Just imagine a Peach tree starting to bear about the 20th of July and continuing through the 25th of September. Have fresh Peaches all summer long from one single tree.

A Modern Fruit Tree for Your Garden

This Everbearing Peach is perfect for your garden. The "Summer Long" Peach has golden yellow flesh. It is a remarkable freestone Peach which has all of the excellent qualities of other Peaches and will produce tasty fruit from July until late September. Fruit is very delicious either for canning, eating fresh or for desserts and jams.

No Wasted Fruit — Enjoy Them As They Ripen

With this Peach tree in your garden, you can enjoy Peaches for two months instead of only a week or two. It will not be necessary to plant a variety of kinds, just one "Summer Long" Peach tree for fruit all summer. Trees are very hardy and require no more care than other varieties.

6 Trees — 4-5 ft. only	7.95
6 Trees — 3-4 ft. only	6.95

Emlong's Popular PEACH TREES

REDSKIN — New Red Color

522. A new introduction that is hardy, productive, large, beautiful and delicious. Redskin is a cross between the well known J. H. Hale and Elberta. Ripens with the Elberta; has beautiful red color. The fruit of the Redskin has yellow flesh, with little or no red color near the pit. Redskin is round, freestone; has firm flesh of excellent keeping qualities; well colored with deep red blush covering fruit. Its delicious flavor and firmness rates this peach tops, for canning and freezing. Trees bear well, are hardy, vigorous and bear young.

O'BOY — Huge, Delicious

518. The largest, most richly flavored, beautifully round and uniform Peach ever grown. Skin is glowing orange blushed with carmine-red. Inside there is a sunburst of bright red from the pit out into the sweet golden flesh. Firm of skin and flesh, an excellent shipper and canner. Ripens with Elberta. Freestone; hardy. Semi-fertile; plant a pollinizer every third row. (Propagation right reserved by Emlong's.)

RIO-OSO-GEM — Best Late

524. Ripens a few days after Elberta. Fruit is large, round and highly colored. Very attractive in appearance. Flesh is deep golden yellow, fine grained, firm and entirely freestone. Recommended for freezing, canning and shipping. Very hardy and heavy producer. Profitable for commercial growers and home orchardists.

J. H. HALE — Extra Large Peach

516. Richly flavored, fine textured, golden yellow flesh. Skin is bright yellow blushed with red; nearly fuzzless. Always sells at top prices. Semi-fertile; plant a good pollinizer every third row.

KING SIZE PEACH TREES

Large, 6-7 ft. trees, you save several years by planting these King Size trees.

"HAVEN"

PEACH VARIETIES

2 GREAT NEW PEACH VARIETIES

Developed by Stanley Johnston — originator of the HAVEN strain of Peaches and introduced by Michigan State University Experiment Station at South Haven, Michigan.

New RICH HAVEN Ripens Midseason

523. The fruits are large, nearly round and uniform in size and shape. The color is a rich golden yellow, overlaid with a large, bright red blush. Extra firmness adds to the handling and shipping ability of the fruit. Flesh is clear yellow with a moderate amount of red near the pit; medium in texture and resistant to browning. Entirely freestone even when firm ripe. Ripens 15 days before Elberta and has made a good record in commercial canning trials. Attractive appearance and excellent shipping and handling ability, should prove Rich Haven a big money-maker for commercial growers. Home gardeners will also enjoy this variety because of its long keeping quality, delicious flavor and hardness.

New SUN HAVEN — Best Early Peach

527. Sun Haven, like Rich Haven, was developed to meet the need of growers for ever-better varieties maturing in succession throughout the peach producing season. It is one of the best, extra-early varieties to date — matures 10 days earlier than Red Haven and 40 days before Elberta. The fruits are large, nearly round and uniform in shape. Color is bright red with enough golden yellow ground color for attractive contrast. Flesh is clear yellow, firm, fine-textured, resistant to browning; has delicious flavor. Sun Haven is highly recommended as an extra early, top quality Peach.

PRICES FOR RICH HAVEN AND SUN HAVEN

Please write for prices on larger quantities.

FAIR HAVEN — Honey Sweet

508. Developed through efforts of Stanley Johnson, Director of Experiment Station at South Haven, Michigan, Fairhaven is a cross between J. H. Hale and South Haven — its parentage is excellent. The fruits are medium large, of rich golden yellow color with bright red cheeks. Ripens August 10th to 20th. Entirely freestone. Ships exceptionally well. The trees are extremely hardy and vigorous; always produce a full crop in spite of a cold or foggy blossoming period, when many other varieties are unproductive.

HALE HAVEN — Fine Shipper & Canner

514. A large beautifully colored, yellow-fleshed Peach. Has delicious sweet flavor. Ripens approximately 15 days ahead of Elberta. Perfect freestone. Keeps exceptionally well even when shipped long distances. Considered one of the finest shipping and canning peaches grown. Trees are strong growers, very hardy and heavy producers.

Rich Haven

RED HAVEN — Extra Early

520. A flaming scarlet Peach that ripens extra early and is very hardy. Originating in Michigan, Redhaven will be colored up with gorgeous all-over red and ready to pick and ship while the fruit is still firm and easy to handle. Firm textured, fine, sweet, golden flesh; wonderful dessert Peach and good for freezing too. Trees bear very young, produce heavily year after year. Ripens 10 days ahead of regular Hale Haven. Freestone. Self-pollenizing.

ELBERTA — Great Commercial Peach

506. Universally known as the outstanding money-maker wherever Peaches are grown. Oval in shape with deep golden skin blushed carmine-red. Flesh is golden, fine grained, firm textured. Unquestionably the leading Peach for home and commercial use. Freestone. Self-pollenizing. Young bearing. Enormous yield at maturity.

Emlong's RASPBERRY PLANTS

Black Raspberry

Large Delicious Berries

Outyields All Other Varieties

701. A new Black Raspberry originated by the Iowa State College and introduced in 1955. In tests it outyielded all other varieties. Black Hawk has produced as many as 5000 pints of berries per acre. The very large fruit often measures $\frac{3}{4}$ inch in diameter. The berries are sweet, juicy and have a rich flavor. Excellent for eating fresh, canning or in pies and jam. Ripens midseason, about the first week in July. Plants are strong healthy and vigorous. The berries have a rich glossy black color, and are firm and stand up well in shipping and handling. Highly recommended for commercial growers and home gardeners.

New LOGAN – Big Yields & Big Berries

704. New early Logan should be in every garden and commercial planting because it is an extra early ripener. Planted along with Cumberland it lengthens the fruit season and increases profits. The berries are round, glistening black and of very firm quality; have a good flavor. Plants are hardy, thrifty growers and drought resistant.

MORRISON – Outstanding Late Variety

708. The outstanding late ripening Black Raspberry. The berries are very large and less seedy than other varieties. Very firm texture yet juicy and deliciously flavored. Hold their shiny black color and firmness exceptionally well; excellent for canning and freezing. Plants are thrifty, disease resistant and bear enormous crops.

CUMBERLAND – Late Ripening Blackcap

702. Ripens midsummer and bears through the late season, producing profitable crops of large, firm, round, glistening black berries that "ooze" with rich flavor. In big demand for fresh desserts, canning and freezing. Plants are self-supporting and non-suckering. Hardy, thrifty growers; will thrive anywhere. An old favorite and still widely planted by commercial growers and in home gardens.

Latham

RED RASPBERRY Latham

The Commercial Leader

712. Attractive deep red berries, uniformly round and unusually large; often measuring one inch in diameter. Deliciously full-flavored and aromatic. Latham berries are top quality and always in demand for fresh desserts, canning and freezing. They bring highest prices on the fruit market and have long been the leading commercial variety. Plants are hardy, thrifty growers and bear enormous crops.

GOLDEN QUEEN RASPBERRY

732. Beautiful large, golden yellow Raspberry. Many prefer Golden Queen because of its sugary sweetness and unsurpassed flavor. An attractive dessert berry and very unusual when served in combination with either Black or Red Raspberries as a dessert. The canes are hardy, vigorous growers and heavy croppers. Ripens with Latham. Culture is the same as that for Red Raspberries.

GROW Giant Blueberries

— COMMERCIALY
or IN YOUR OWN GARDEN

Enjoy juicy, giant, luscious Blueberries right from your own bushes. Blueberry plants have a dual purpose in your planting. They are excellent ornamental shrubs; both when in bloom with large clusters of Lily of the Valley like flowers, or when loaded with ripening berries, as well as affording delicious fruit for your own use, or market for profit.

The foliage of the Blueberry turns red in the fall, giving a pleasing contrast among other shrubs. Plant Blueberries in shrub borders, hedges, or for tall foundation plantings.

For a big money-making crop, these giant size, dark blue Blueberries are without equal. Each bush is a fruit garden in itself. Berries are mild and sweet. Fruit ripens over a long season and keeps well on bushes and after being picked.

Blueberries can be shipped long distances and make a very profitable crop for the commercial grower. Plants usually start to bear the third year and increase in productiveness until the tenth year. Plant two or more bushes for perfect pollinization; set 5 to 7 feet apart.

JERSEY — Midseason to late No. 744 Vigorous hardy bushes; yield extra large berries. In our opinion Jersey is superior to other varieties.

RUBEL — Midseason No. 748 A very hardy upright bush, that gives generous yields of medium to large size fruit.

RANCOCAS — Early No. 746 The Rancocas variety is of excellent quality, and produces a good crop over a long picking season.

Heavy Bearing SWEET CHERRIES

Black Giant

BLACK GIANT. 406. Our largest, blackest and sweetest Cherry! Bears the heaviest crops of any Sweet Cherry we have grown. Ripens late, keeps a long time on the tree. Excellent shipper and canner. Hardy as Tartarian. A beauty which you will grow with pride. Self pollinizing.

WINDSOR. 414. Cherries ripen late, prolonging your Cherry profits. Fruits are large, dark maroon in color, with wonderful keeping and shipping quality. Very hardy and an abundant yielder. Self-pollinizing. We highly recommend Windsor for a well-rounded orchard.

BLACK TARTARIAN. 408. The very popular purplish-black Sweet Cherry, which ripens so early and has marvelously rich flavor. Fruit matures to large size. Trees are hardy and bear young and heavily. A leading shipping and canning Cherry. Excellent pollinizer.

SCHMIDT. 412. For the midsummer market there is no finer Sweet Cherry grown. Fruits are extra large, plump and uniform in size. A beautiful dark, glossy black in color. The flavor is rich and superb. Quality is extra firm and fine for fresh desserts and canning. Good shipper. Hardy, prolific bearer. Plant Black Tartarian for pollinizer.

NAPOLEON. 410. The favorite golden Sweet Cherry with beautiful pink cheek. Known in some sections as Royal Ann. Very large fruits; deliciously sweet flavored. Favored for fresh desserts and canning. Heavy producer and good pollinizer.

BING. 404. Famous from coast to coast. Wonderful dessert cherry. Richly flavored, extra large size, brownish black-red color. Ripens midseason. Self-pollinizing.

FULL SIZE FRUIT

Dwarf Fruit Trees

ON DWARF TREES

FULL SIZE FRUIT IN YOUR OWN YARD

DWARF APPLE TREES

Dwarf Apple Trees are in great demand by the grower with limited space. The small trees grow about 8 to 12 feet tall at maturity and do not spread more than 10 to 12 feet. Although the trees are dwarf in size, they will bear the same size fruit as the standard trees. They often start bearing the second year after planting. Mouth-watering fruit is produced in abundance and is easily picked. A dwarf apple tree is a beautiful addition to your landscape as an ornamental tree. Enjoy this easy-to-pick fruit in your own yard without delay. Plant several trees of different ripening dates to give you a succession of apples all season.

Important: Plant with bud union 2 to 3 inches above surface of the ground. Limited supply. Order now.

Varieties available:

- Solid RED DELICIOUS. 614.** Truly King of all red winter apples.
Bright RED JONATHAN. 616. A big favorite for both cooking and eating.
RED McINTOSH. 620. The best red fall apple. Juicy, fine for sauce or fresh fruit.
YELLOW DELICIOUS. 618. The finest yellow fall apple.

Tree

DWARF PEAR TREES

Trees bear full-sized, delicious fruit, the same as standard varieties. Often start to bear the year after planting. Always produce a full crop of large sized fruit. Ideal for the home garden and growers with limited space. Trees are very ornamental in spring with their abundance of creamy white fragrant blossoms. Plant as close as 5 feet apart. These sturdy dwarfs seldom grow more than 6 to 10 feet tall and are loaded to the ground with fruit. Easy to pick — throw away your ladders, stand on the ground and pick bushels of Pears. Trees are hardy, thrifty and heavy bearers:

Varieties available:

- BARTLETT. 604.** The favorite summer Pear.
CLAPP'S FAVORITE. 606. Large pale yellow with red blush. Early summer.
DUCHESSE. 608. Giant size. Tender, juicy. Early fall.

DWARF PEACH TREES

We are now able to offer Dwarf Peach Trees producing full size delicious peaches, often larger than those produced on full size trees. These trees are grown on special root stock with an ultimate height of 6 feet. The fruit can be picked from the ground — no ladders needed. The tree is easy to care for, requires little space and will bear fruit for many years. It is a heavy producer, providing an ample supply of fruit for the average family, for every home use. Even though you have only an ordinary size backyard, you can now enjoy luscious, fresh peaches picked from your own trees.

These trees are very ornamental and make a beautiful addition to any yard — from their spring blossoming stage through summer and fall as the colorful fruits ripen. **Varieties available:**

- SUN HAVEN. 622.** Best of the early.
RED HAVEN. 625. All over red color.
FAIRHAVEN. 621. Honey sweet; delicious.
HALE HAVEN. 624. A favorite for canning.

Dwarf Fruit Trees

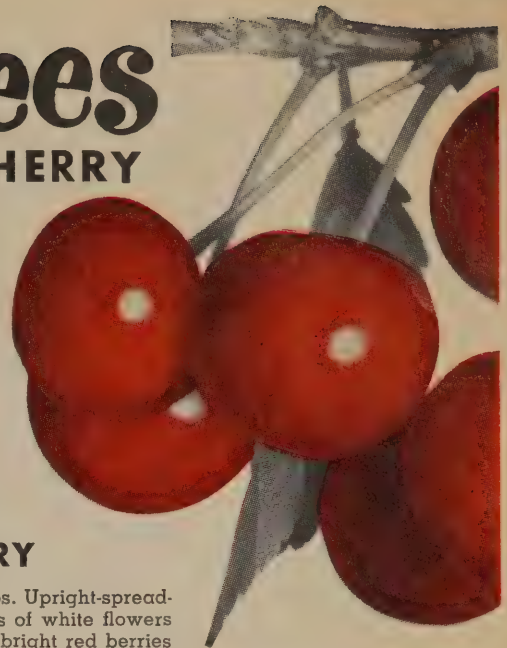

NORTH STAR Dwarf CHERRY

High Bush Cranberry

632. New dwarf cherry originated by the University of Minnesota. Large, mahogany-red cherries on a dwarf tree 5 to 7 feet tall. Skin tender, flesh juicy and meaty. The fruit ripening season is early, starting about the first of July in Michigan. Excellent for pies and sauce. Very hardy — will succeed farther north than any other cherry of equal size and quality. The tree is small but productive and is self-fertile. Trees are attractive in foliage, blossom and fruit. A very heavy bearer.

	Each	2	4
3-4 ft. trees.....	\$3.25	\$6.25	\$12.25

HIGH BUSH CRANBERRY

743. One of the finest background and screen shrubs. Upright-spreading habit. Dark green 3-lobed leaves. Huge flat clusters of white flowers appear in May and June followed by great clusters of bright red berries in late summer and remain through most of the winter. Fruit makes a very delicious tart jelly. Grows well in shade or sun and in most soils.

	Each	2	4
2-yr. Field-grown Plants.....	\$1.25	\$2.35	\$4.50

Dwarf BEACH PLUM *Amazing New Ornamental*

630. The Beach Plum in full bloom is a thing of great beauty. Again a unique bush has been developed which is not only a beautiful ornamental but valuable for its fruit. Beautiful white flowers appear in early spring before the leaves; glossy green foliage. Bears first or second year after planting. An absolutely hardy, wonderful productive bush that grows vigorously even in poorest soil. Dwarf — 3 feet tall. Heavy bearer. The fruit is deep blue, sweet, good flavor. Excellent for jams and jellies. Ripens in August. Small pit.

NECTARINES

642. This delicious fruit is a cross between a Peach and Plum. Resembles a Peach in shape, size and flavor. Smooth skin, similar to that of a Plum; many fruit lovers call it the "Fuzzless Peach." Fruit is large, with striking red color, very juicy and delicious. It is freestone and ripens with the Elberta Peach. Its habits are similar to the Peach; therefore culture is the same. Excellent for canning or as a fresh fruit. Plant two or more trees for proper pollenization.

OKA Dwarf CHERRY

628. Larger than Cherries, fruit is dark purplish-red all the way through and very delicious. This hardy, Hybrid Cherry Plum bears a full crop even in the coldest climates where Cherries do not thrive. Very hardy, early bearing and of prolific Dwarf habit. Showy blossoms followed by full crop of fruit. The trees themselves are shapely with good foliage, flowers and fruit, attractive enough to plant anywhere. A beautiful and ornamental tree to plant in garden or border, preferably near Plum trees. Fruit is about 1 inch in diameter, very sweet and very delicious for eating fresh, and for jams and jellies. Fruit ripens late July or early August. Plant two trees for best results. Bears quickly.

SAPA Dwarf PLUM

626. Tree is of dwarf habit but a rapid grower. Often starts to bear the year after planting. Trees are very ornamental in early spring when the branches are covered with shimmering white blossoms followed by an abundance of fruit. Fruit is red-fleshed, medium-sized; deliciously sweet and juicy. Small freestone. Fruit is firm, good for canning, pies and shipping. Enormous cropper even in the coldest climates. Hardy in all sections. Plant two trees for best results. A perfect tree for beauty and fruit. Enjoy these luscious plums now! — right from your own trees even though you have only an ordinary sized yard.

Double Red
Delicious

DOUBLE RED DELICIOUS. 306. Truly King of the winter eating Apples. Very fine, solid-red strain of Delicious, resembling its parent in all characteristics except color. Ripens in October. The fruit is large, attractive solid red without striping. The flesh is highly flavored and stays crisp and juicy long after picking. Excellent shipper and keeper. One of the most popular eating apples and a big seller from coast to coast. It should be in every commercial planting and home orchard because of its outstanding qualities.

RED JONATHAN. 314. The favorite large, red Jonathan so popular with commercial growers. Has firm, superior keeping quality which makes it highly profitable for market. Flesh is tender, juicy and richly flavored; excellent for eating fresh and for cooking. Ripens in fall; keeps well all winter. Trees bear young and are very productive and long-lived. Hardy; thrives almost anywhere.

PLANT EMLONG'S Superior Northern Grown APPLE TREES

YELLOW DELICIOUS. 308. Queen of the late fall eating Apples. Similar in shape and size to Red Delicious, but color is golden yellow. Flesh is firm, crisp and juicy and deliciously flavorful. The big, richly fragrant, golden fruits are considered the finest of yellow Apples. Keep exceptionally well all winter without becoming mealy. Our large fruiting strain bears young and abundantly.

TURLEY WINESAP. 322. The best keeper of the solid all-red winter Apples. Ripens earlier than other Winesaps; colors on the tree to a bright, rich all-over red. Fruit is large, uniform and firm; flesh has excellent flavor, crisp and juicy. In big demand for shipping, storage, for drying, cooking and eating fresh. A perfect all-around Apple. Trees are thrifty and hardy, produce big crops every year.

RED McINTOSH. 316. Emlong's large fruiting strain of McIntosh is a winner for flavor and quality. Bright red fruits of good size with white flesh. A fine juicy and highly aromatic Apple. Beautiful and a good seller. Heavy bearing, ripening in fall.

YELLOW TRANSPARENT. 324. (Lodi Improved Strain.) Always produces a big crop of tasty Apples for pies and cooking during summer. Hardy no matter how cold your winters. Thrives in all soils and **bears quickly.** A perfect pollinizer.

RED ROME BEAUTY. 320. An all-red strain of the old Rome Beauty. Highly prized for baking purposes. Trees are vigorous growing and yield heavy crops of large, evenly colored Apples that keep extremely well all winter.

CORTLAND. 304. (Fall) A shapely, big, round Apple which has won fame for its quick bearing and heavy yielding habit. Flesh is white, tender, sub-acid. Good to eat fresh or cooked; delicious pie variety. Hardy everywhere; an excellent pollinizer.

RED DUCHESS. 328. Popular early fall Apple. One of the best for cooking; makes wonderful sauce and pies. Fruit is round, solid red in color; flesh is crisp, juicy and flavorful. The variety is very hardy and will thrive everywhere.

5-in-1 Apple Tree

EMLONG'S DELICIOUS FENTON RED

New Extra-Early Red Apple

326. (Propagation rights reserved.) Here is a New Early all red apple, which ripens fully 2 weeks before McIntosh. The Fenton Red is very early and still has all the good features of the late Apples. Fenton Red was discovered by Mr. Harold Fenton of the Fenton Orchards, Michigan City, Indiana. Fenton is far superior to any early apple. It has excellent keeping qualities (known to keep until late December in an ordinary refrigerator.) The attractive fruit is large and uniform in shape.

Delicious, juicy, white flesh tinged with red. Fenton Red is an apple with many uses; ideal for eating fresh, pies, sauce and canning. It is equally suited for the backyard gardener, as well as the commercial fruit grower. Its habit of producing a crop in a short time is another of its good features. Supply is limited, order early.

IDA RED

Productiveness, Quality
Places it first!

330. A recent introduction which is a cross between Wagner and Jonathan. Its season is with or a little later than Jonathan, extending the harvesting season somewhat. Trees are hardy and very productive; grow in an upright spreading manner and seems to be rather resistant to blight. A regular heavy bearer.

Fruits are medium to large in size and of a strikingly beautiful bright red color. Skin smooth, medium thick, waxy; rich yellow undercolor. Creamy white, smooth textured flesh. The supreme quality and excellent taste make this an exceptional apple for eating and cooking. This beautiful apple also has many points to recommend it as a profitable commercial variety.

World's Finest Pie Cherry

MONTMORENCY

Emlong's Improved Strain

402. Regardless of where you live, MONTMORENCY is the only profitable Sour Cherry to grow. Bright red, big, round, juicy fruit. Deliciously sub-acid; good to eat fresh or canned. Makes wonderful pies and cider. Preferred by canners to all other sour varieties. Remarkable keeping qualities. Ripens mid-summer to late. Trees are self-pollenizing; always yield enormous crops of Grade A fruit. The leading Sour Cherry for commercial growers and home gardeners. Emlong's strain of large Montmorency bears young. Our trees are certified by the Mich. State Dept. of Agriculture to be propagated from virus disease-free budwood. This special feature costs you nothing extra. Every year Emlong's big nursery is headquarters for the finest Montmorency trees in the world. Orchardists from all the big fruit belts come to our nursery for their trees. We know our trees will please you as they have others. Profit by planting Montmorency this spring.

Emlong's Best PLUMS

RED GIANT

An Amazing New Plum
Large in Size

558. One of the most beautiful Plums. Roundish oblong in shape, the fruit often measures 2½ to 3 inches long, in clusters of 7 to 12 giant beauties on the end of each branch. Ripening early, Red Giant plums attain a deep glowing maroon red color, thickly overspread with pink bloom. Flesh is greenish yellow, very firm, fine and sweet. Red Giant is a wonderful shipper and canner. Plant 2 trees for best results. (Grown and sold only by Emlong's. Propagating rights reserved.)

Famous GREAT EUREKA

HEAVY-YIELDING QUICK-BEARING

552. The delicious flavor of Eureka is a combination of Plum, Apricot and Peach. The fruit is thin-skinned, juicy and pleasant to eat; separates easily from the pit. Eureka is known as the "Red Nectar" fruit because the juice is red and sweet. Trees bear young and produce enormous crops. Wonderful shipper and canner. Plant 2 or more trees for best results. (Emlong's propagating rights reserved.)

KING SIZE PLUM TREES

Varieties: Superior and Stanley Prune. You save several years by planting King Size Trees now! No waiting for crops.

\$3.00 each 2 for \$5.75

STANLEY PRUNE

The Sweetest Prune Grown

560. The "leader" of all Plums or Prunes offered today. It is the sweetest Prune grown and bears the quickest. Often starts bearing the second year after transplanting and yields heavily every year. Beautiful dark blue skin, overspread with attractive bloom. Sweet golden flesh so sweet that it needs little sugar for canning. Juice is wine colored and rich. Freestone. Ripens midseason. Adapted to a large range of soils. Hardy thrifty grower; self-pollenizing. Stanley Prune is a money-maker for commercial growers as well as an excellent variety for home growing. Ranks high for drying, preserving or dessert. No home or market orchard is complete without a planting of this excellent variety.

ITALIAN PRUNE—A Favorite

556. Is the most widely grown of all Plums. Large, oval-shaped purple-blue Plum with attractive coating of blue bloom. Flesh is firm and golden, good texture and flavor. Tree is hardy, productive, well formed and bears regularly. Self-pollenizing. Excellent shipper.

GREEN GAGE—Tops in Quality

554. The famous dessert Plum with the sweet-tart flavor. Just full of sweet, sugary flavor. Large, greenish-yellow fruits are produced freely. Flesh is fine-grained, firm and juicy. Freestone. Ripens in early September. Self-pollenizing.

SUPERIOR — Semi-Dwarf, Young Bearing

562. The fruits are extra large, have beautiful wine-red skin covered with purple bloom. Yellow flesh is delicious, sweet and juicy; freestone. The fruits are good shippers and keep exceptionally well. The trees are very hardy, bear early and yield big crops. Extremely hardy and vigorous grower. For best results plant 2 or more trees. A money-making variety.

Stanley Prune

Emlong's **RED** Raspberries

EVERBEARING VARIETIES

New SEPTEMBER — Two Crops in One Year

714. A superior new variety that bears a full crop of berries in June and another large crop in September. Berries are large, bright red, uniform in shape and of excellent quality. Keep well on the bush and after picking. Fruits ripen several days before earliest spring bearing varieties. Full crop matures 2 to 4 weeks ahead of other fall varieties — thus avoiding failure due to early fall freezes. Plants are hardy, vigorous growing and increase rapidly.

New DURHAM — Large, Everbearing

711. Large, plump, juicy berries, free from seediness and full of delicious flavor, are borne until frost. The non-crumbling, red berries ripen down the cane so the foliage protects the late fruit. Plants are hardy, vigorous growing and increase rapidly. The full-flavored berries are delicious to eat fresh, canned or frozen. Its large size, firm berries also make this an excellent shipping variety.

The New RED RHUBARBS

VALENTINE. 858. Deep bright red in color. Texture smooth and tender. Has a rich flavor with a slightly tart aftertaste. The Valentine is an introduction of the Ontario Horticultural Experiment Station and has taken the lead among the red Rhubarbs. Combining very high quality and richness of flavor, vigor and growth, the Valentine will soon be the standard by which all other Rhubarbs are measured. The beautiful red color is clear through; stalks are tender and very sweet. Retains its bright color in cooking. Very delicious for pies and sauce. Plant Valentine this spring and enjoy its fruit for years to come. 89c each; 3 for \$2.49; 6 for \$4.29.

RUBY RED

856. Large, plump, red-in-the-center stalks of the sweetest Rhubarb that you ever tasted. Excellent for pies and

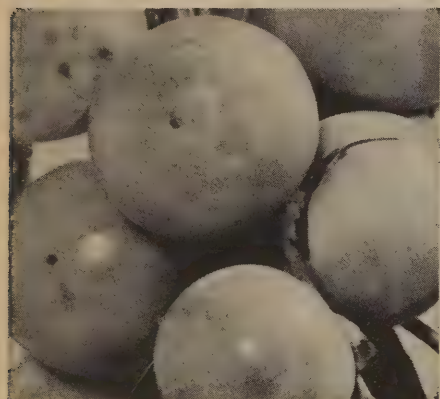

sauce; stalks are tender and never stringy. Early spring fruit, quickly forms a large-clump. Hardy and easy to grow anywhere. Three

mature plants will supply the average family for year-
• 47 • round use. 79c each; 3 for \$2.19; 6 for \$3.79.

TROPICAL and NOVELTY FRUIT

Dwarf Wonder Lemon

Persimmon

DWARF WONDER LEMON

2872. Sometimes offered as Ponderosa Lemon. The most unusual plant ever offered for indoor culture. During the blooming season, several times a year, the plants are covered with fragrant, waxy-white flowers, followed by large lemons of excellent quality. 2 1/4 in. Pot Plants, \$1.25 each; 2 for \$2.40, postpaid.

DWARF TANGERINE

2876. An exciting new plant that you will want to add to your collection. Small, deep-orange fruits, glossy green foliage and dainty, fragrant blossoms make this unique house plant an attraction the year around. 2 1/4 in. Pot Plants, \$1.25 each; 2 for \$2.40, postpaid.

PERSIMMONS

742. You will enjoy the delicious, bright golden-orange fruits of this hardy and very ornamental tree for years to come. Sweet as honey, with a rich spicy flavor; highly prized for preserves and jelly. 2-3 ft. field-grown plants: Each \$1.20; 2, \$2.30; 4, \$4.40.

Everbearing DWARF FIGS

640. Sure you can grow them! Have delicious sweet, juicy Figs from your own garden. Plants bear first year they are set out. For sections north of Philadelphia, we recommend growing them indoors in tubs. 2-3 ft. trees, \$1.50 each; 2 for \$2.85; 4 for \$5.45.

Dwarf Figs

"The Miracle Plant Food"

RA-PID-GRO

**Contains Vitamin B₁ and B₂
 Plus 11 Other Plant Food Elements**

82. Ra-pid-gro is so easily prepared for use. Just add water at the rate of 1 pound of Ra-pid-gro to 22 gallons of water. Allow to dissolve and it's ready for use. Apply around the plants according to directions on the bag. For use on small numbers of plants, mix at the rate of a teaspoonful to a quart of water. Also very valuable for use when transplanting. Dip plants in solution for 3 or 4 minutes.

Stop Expensive and Tragic Transplanting Losses

By using a large tub or pail and mixing Ra-pid-gro with water at the rate of 22 gallons of water to 1 pound, you have a solution in which to dip the roots of the plants before setting out. If this is done, you will practically eliminate transplanting losses. Trees, shrubs, roses, evergreens, and similar plants should be set in the solution 3 to 4 minutes. Berry plants 1 minute. Vegetable and house plants just dip and remove. Grass and vegetable seeds should be sprinkled with Ra-pid-gro before sowing. Use the solution for watering after setting out plants or sowing seed.

Emlong's Outstanding PEAR TREES

BARTLETT. 452. The leading commercial Pear. Large, waxy yellow fruit with red blush. Flesh is superbly flavored, fine textured, white and juicy. Favored for fresh desserts, canning and summer storage. Ripens in summer. Bartlett is the most widely known and attractive of all Pears. A proven money-maker for commercial growers; and one of the most popular for home gardens. Plant Emlong's PRIDE-O-MICH strain to insure perfection. Our vigorous growing, disease-resistant trees can be depended upon for enormous crops of extra-choice fruit. Order your trees now.

BOSC. 454. There is no better flavored Pear than the long necked Bosc which is sold on the fancy fruit market at a handsome profit. Firm skin makes it a wonderful keeper and shipper. Flesh is very firm, white and sweet. Unequalled as a dessert Pear and always in demand for high-priced gift packaging.

CLAPP'S FAVORITE. 458. Large, uniform fruit with beautiful green skin, deeply blushed carmine-red. Flesh is crisp, white, juicy and sweet. Ripens in summer. An excellent all-purpose variety. The tree is very hardy and a thrifty grower; reliable and bountiful producer.

SECKEL. 460. Because of its sweet, delicious flavor, it is called the Sugar Pear. Fruit is small but of the highest quality and especially favored for preserves and pickling. Ripens in late summer. The tree bears young and heavily. Blight-resistant.

Hardy Pecan Tree

HARDY PECAN

Large Thin-Shelled Meaty Nuts

912. This is the rapid-growing, young-bearing variety that can be grown successfully in Northern climates. The nuts are very large and thin-shelled with large, flavorful nutmeats; much in demand for baking, confections and eating fresh.

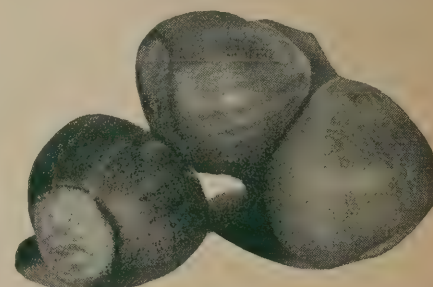

Nut Trees Are a Lifetime Investment

The Hardy Pecan is a beautiful, long-lived, strong growing tree and a dependable, prolific bearer. Makes a very profitable crop for commercial growers. The tree is also a fine ornamental, growing to a great height in the course of time. Starts bearing young and will produce bountiful crops of nutritious, delicious nuts year after year.

ASPARAGUS

EASY TO GROW GOOD FOR YOU

One planting of Asparagus lasts many years. Requires little care. Asparagus is always ready to sell early in the spring before other vegetables are ripe and always brings a good price. Emlong's home-grown roots are bright colored and of large caliper. **Plant them during March, April and May.**

PARADISE. 852. The new giant strain of Asparagus from California. Makes long, thick, very tender stalks. Grows quickly. Said to bear usable tips a year sooner than other kinds. Paradise retains its color when canned or frozen. Very profitable and very dependable for home or market. Rust resistant and very productive. A hundred roots will supply the average family for many years. Plant the same as Washington.

WASHINGTON. 854. Introduced by the U. S. Department of Agriculture, this has long been the leading commercial Asparagus. Produces large, tender, green tips. Mild, rich full flavor, very delicious. In great demand for shipping, canning and freezing. Plant the roots 12 inches apart in the garden. In the field rows can be 4 feet apart. 5000 roots plant an acre.

CHINESE CHESTNUT

Mammoth Size — Blight Resistant

908. Wonderful new strain. Proven highly blight resistant in this country. Extremely hardy and vigorous. Trees are rapid growing, quick to bear and very heavy yielders. Trees produce nuts of fine flavor, sweet and are larger than those produced on the ordinary American variety. The meaty nutritious nuts are a favorite of everyone; always in demand for baking, confections and eating during the winter holidays. Trees grow about the size of an apple tree and are very decorative for lawn, providing good shade besides yielding an abundant crop of nuts each year. Bear young. Will thrive in any well-drained soil and require very little care once they are set out. For a profitable crop of nuts as well as beauty and shade, we recommend planting a few trees. Plant 2 trees for best results.

Paper-Shell ENGLISH WALNUT

Famous Hardy Carpathian Strain

910. This hardy strain of English Walnuts grows rapidly and starts to bear at a young age. The nuts are large, thin-shelled and well filled with full-meated kernels of extra delicious flavor. The trees are very ornamental, very hardy and are heavy, dependable bearers. English Walnut trees provide an abundance of shade, as well as a profitable crop of nuts year after year. They are easy to grow, require very little care. For beauty, shade and cash income plant dependable English Walnuts. Plant 2 or more trees for perfect pollination.

English Walnut

Interlaken

The Favorite Garden and Market GRAPES

INTERLAKEN SEEDLESS. 816. A new variety producing rich golden yellow fruit with medium-size berries that are very sweet. Flesh is meaty, solid and crisp. Can be eaten whole like California Grapes. Ripens a full month ahead of Concord. A strong growing variety, bears young, heavily and regularly. Deliciously flavored for home use and an excellent Grape for commercial planting.

	Each	2	5
Selected 2-yr. Plants.....	\$1.50	\$2.75	\$6.50

STEBEN. 818. An excellent new blue-black Grape. Has great commercial possibilities. Berries are medium size with very heavy bloom. The flavor is sweet with distinctive spicy tang. The skin is tough and the variety keeps exceptionally well. Bears long, tapering, very compact clusters. A hardy, vigorous, productive variety.

	Each	2	5
Selected 2-yr. Plants.....	\$1.50	\$2.75	\$6.50

GOLDEN MUSCAT. 802. Wonderful new golden yellow Grape. Very large, compact clusters with large, juicy, sweet and tender berries. Has tangy Muscat-like flavor; desirable for fancy dessert. For home use and as a commercial Grape it cannot be beat. Vine is vigorous and very productive.

	Each	2	5	10
Selective 2-yr. Plants.....	\$.80	\$1.50	\$3.50	\$6.75

SENECA. 804. The new skinless Grape. Large, compact bunches with golden yellow, oval shaped berries. Texture firm and the skin can be eaten. Flavor is honey-sweet and aromatic. Ripens early. Hardy and vigorous; grows anywhere. Keeps well on vine or in storage until late fall.

SENECA Bargain No. 813X

4 GRAPES, one each of the four new varieties listed above. A \$4.60 value for only..... **\$3.95**

CONCORD. 806. The leading big-crop, dark blue Grape. Flesh is juicy, sweet and tender, excellent flavor. Vine is a strong grower, very healthy, hardy and productive. Grapes keep a long time on vine and after harvesting. Fine for shipping, for cannery and winery trade. Excellent flavor. Usually bears second year. Ripens in October.

FREDONIA. 808. Very dependable blue-black Grape. Earliest to ripen. Vines are very disease resistant, vigorous and productive. Produces clusters of large size, cylindrical and very compact; berries are large, round and hang well to the bunch. Deliciously flavored whether eaten fresh or made into jelly or wine.

NIAGARA. 810. One of the most widely planted and best known white Grapes. Vine ranks with Concord in vigor and productiveness. Large, perfectly formed bunches of berries. Beautiful amber-green-white color. Rich aroma makes it a good seller. Tangy, muscat-like flavor. Excellent for all purposes.

CATAWBA. 812. Best of the red varieties. Fruit extra large; bunches compact and of good size. The only red Grape that has proved itself over the years to be the best for commercial planting and home garden.

New **RED RICH** EVERBEARING STRAWBERRY

225. You've never seen plants so BIG and so VIGOROUS, or berries so RICH in bright RED color clear through to the core! Flavor? Ummm! One bite will convince you new RED RICH is the sweetest berry grown! Developed in Minnesota, this wonderful berry is the result of a cross between Wayzata and Fairfax. It combines the best qualities of both — big, firm berries and wonderful honey-sweet flavor, that made Wayzata famous; coupled with thrifty growth, heavy yield and the good plant-making ability of Fairfax.

BEARS ALL SUMMER

RED RICH ripens its first berries in June and keeps right on giving you

heavy yields all summer, right through to fall. Luscious, big berries with a firmness clear through that holds up exceptionally well in storage or shipping. They are unsurpassed for freezing; have such an abundance of natural sugar, none need be added; remain firm-textured and won't mush-up when thawed.

Each RED RICH plant shipment carries new "Space System" planting instructions. Follow these carefully; you'll be delighted with the results. Commercial growers and home gardeners alike can profit by planting RED RICH. Supply is limited — order yours today.

New **EARLIDAWN**

- EARLIER THAN PREMIER
- VERY FROST RESISTANT

250. A new introduction of the U. S. Dept. of Agriculture. The earliest of all to ripen. A nearly frost-proof variety that has excellent, uniformly large berries. The rich, sweet, juicy flavor makes this strawberry an outstanding variety. Excellent for table use, jams, jellies and freezing. Yields large crops of big, juicy berries. Vivid red color and firmness make it a profitable berry for market and shipping.

EMPIRE New and Tasty

254. This new variety is proving a good money-maker for commercial growers. The berries are large, bright red and so attractive they command highest prices. The plant is thrifty, vigorous growing; makes a good fruiting row. Berries have extra delicious flavor and good firm quality. Ripens a few days ahead of Premier. Excellent shipper.

CATSKILL Excellent for Freezing

240. Catskill is generally recognized as one of the best of the mid-season to late varieties. This popularity is due to the fact that it will produce more quarts of large berries than any other variety. Catskill is a cross between Premier and Marshall. It is a sure cropper, as it ranks next to Premier in this respect. It rarely ever freezes. Fruit is bright, shiny red; the berries hold their color very well. Plants make a fine, vigorous growth. Unrivalled for flavor — unbeatable for sugar sweetness. An excellent berry for canning, freezing and shipping because the berries are firm and solid. Very hardy, doing well in all Northern states. Very productive plants, vigorous and healthy.

"BRILLIANT" Plant Patent No. 1183

EVERBEARING STRAWBERRY

EXCELS IN GROWING, BEARING

AND TASTE TEMPTING FEATURES

210. Everbearing Champion! Brilliant has won all records for BIG YIELD and PERFECT BERRIES. In tests with other everbearing varieties Brilliant produced 7000 quarts per acre; 2000 more quarts than any other variety.

True Everbearer! Brilliant is the only everbearer that keeps fruiting steadily all summer and fall. It is a 100% perfect pollinizer; matures to full size, uniform shape and even color.

Quickest Berry Maker! Brilliant plants are so thrifty and vigorous that, unlike other everbearers, the very first blossoms can be left on to bring you perfect berries just a few weeks after the plants are set out.

Brilliant Has Stood Every Test! Where many varieties fail due to droughts or excessive rains, Brilliant will thrive and produce its usual enormous load of top quality berries. Perfectly hardy, Brilliant does equally well on thin sandy soil, heavy clay or raw muck.

Big Money-Maker! Matchless quality and flavor make Brilliant a leading money-maker for commercial growers. The luscious, brilliant red berries are always in demand and bring top prices on the market. The rich, tangy flavor is outstanding; flesh is firm, solid and red clear through. Home gardeners, too, can profit by planting Brilliant this spring. Order your plants now.

The Perfect Border Planting

It's the spectacular new garden idea — Emlong's "Brilliant" Everbearing Strawberry Border — gives you thrilling new beauty for your garden, PLUS loads of luscious, sweet berries! Now, even with the smallest yard you can grow your own strawberries — no extra space is required. Plant Emlong's Brilliant Everbearing Strawberry plants along walks or driveways, around a terrace, along your flower beds. You'll be amazed how colorful they really are! Just imagine — a compact border of lush, glossy green plants covered with beautiful white blossoms and big, sparkling red strawberries all spring, summer and fall.

Ripe Berries a Few Weeks after Planting. Brilliant is the quickest berry maker you ever saw! The plants are so vigorous they begin to bear just a few weeks after they are set out and will continue bearing from spring until fall — big, perfect red berries, chuck full of delicious flavor. You'll enjoy mouth-watering strawberry desserts all summer and have enough for freezing too! Plant a Brilliant Strawberry Border this spring — you're sure to create a sensation among neighbors and friends! Order your plants today.

VIRUS FREE ROBINSON-Best Late

270. Robinson is the only variety certified as Virus Free, by the Michigan Department of Agriculture which began the program in 1950. Completely healthy plants, selected from hundreds of samples, were propagated in strict isolation at the university farms. The resulting virus-free stock was then released to Michigan nurserymen who agreed to further propagate this stock under restricted conditions and definite cultural practices to maintain the virus-free characteristics. You as the grower planting these virus-free plants, need not be concerned with isolating them. Spraying and weed control, however, are good practices and should be carried on diligently in any strawberry planting.

One of the largest berries grown; 30 berries will fill a quart! Flavor is honey sweet. Berries are bright red, conical in shape and well colored to the center. Flesh is firm-textured and solid; excellent for canning and freezing. Plants are hardy and prolific; makes a good fruiting row on any soil; does well in the North. Ripens about two weeks after Premier. Bears heavily over a long period.

\$1.35	\$1.85	\$2.95	\$4.95	\$8.75	\$14.95

Premier EARLY →

The Dependable Strawberry

265. The best selling Strawberry from coast to coast. It is one of, if not the earliest berry to bear, yet resisting frost. The picking is best before other commercial varieties come into bearing, thus bringing "first-of-the-season" high prices. Plants are thrifty, vigorous growers and make a good fruiting row. The foliage is tough and unusually healthy. Blooms are covered and protected from frost by the foliage. Premier starts to ripen early and continues bearing heavily for a long period.

Berries are uniformly large; long, pointed in shape and bright scarlet-red; have a super-delicious flavor. Its deep heavy roots enable Premier to withstand dry weather and mature full size crops when many other varieties are a failure. Can be trucked long distances and still look fresh, bright and very appetizing. Wonderful for fancy dessert and canning. Perfectly self-pollenizing; drought-resistant. **Set plants in April and May. They will bear next year.**

Kardinal King

260. An outstanding variety that is sweeping the country. Kardinal King has created something of a sensation with its record breaking crops. The best late Strawberry. It starts to bear after Premier and continues through the late berry season, prolonging your berry profits. The plants grow large, making wide fruiting rows and producing record breaking crops. The fruits are large, solid red, luscious and full of good flavor. A full-flavored, richly sweet and juicy berry favored for table use, jams, jellies, and freezing. Also praised for its high shipping quality. They retain their quality long after being picked and may be shipped long distances without harm. Thrifty, strong, hardy grower. The foliage is dark and is free from leaf troubles; will thrive and produce a crop of berries even on rather poor soil. Give Kardinal King a trial and be convinced of its superior qualities as the perfect variety both for home and commercial use.

Jumbo THE LARGEST STRAWBERRY GROWN

255. This exceedingly vigorous grower produces large quantities of berries which are extra large and the flavor is mild and sweet. Plants are strong, vigorous and very healthy; makes an excellent fruiting row. Berries are a very dark red. Berries may be picked when they reach the color of Premier, or allowed to remain on the plant until completely ripe. Not quite as early as Premier. Proven to be one of the heaviest yielding strawberries known and also a good plant maker. Due to its firmness and color, Jumbo is a very good shipper; keeps exceptionally well.

RICHLY FLAVORED OLD FAVORITE

245. Dependable midseason to late Strawberry which stands coldest and warmest climates and poorest soils. Plants are medium in size, long rooted, extremely vigorous, free from disease, and will make more plants than any other variety grown in the midwest. Plants make a solid fruiting row, and bear medium size, very dark red berries that are honey-sweet. Richest flavored in the Strawberry family. Favored for preserving, jam, jelly, etc. Self-pollenizing. Very productive.

CRIMSON KING maple

KING OF THE ORNAMENTAL TREES

(Plant Pat. No. 735) 1208. Truly the best Red Maple grown. In the spring the foliage is a rich deep purple-red which is carried through the entire season. Unquestionably, Crimson King is a superb tree for single specimens, for tree lawns, along driveways, and every landscape purpose. Fine for city planting; not harmed by smoke, gases, dust. A sport of the well-known Norway Maple; has similar habit of growth. Crimson King is a magnificent specimen tree for large or small gardens. Very hardy; will live for generations, becoming more beautiful each passing year. The trees we send are one-year tops and three-year roots. They start branching the first season.

FLOWERING DOGWOOD

A Vision of Loveliness in All Seasons

RED FLOWERING

CHEROKEE CHIEF

1265. A sensational new Red Dogwood. Outstanding for its beauty and earliness of bloom. Beautiful rose-red blossoms cover the tree in early spring, followed by attractive dark green foliage which changes to gorgeous shades of red in the fall. Bears clusters of bright red fruit in September and October. The spreading branches grow horizontally and slightly upward from the trunk. Grows 8 to 10 feet tall. This variety makes a beautiful lawn specimen and is equally effective in border planting. A combination of red with white flowering makes a lovely grouping. Dogwood thrives in any fertile soil; prefers a shaded location.

MULTIPLE BIRCH ↘ Artistic White Bark Beautiful All Year

1224. (Clump Birch) These are a special strain of beautiful American White Birch which produce three or more trunks from one root. The bark is white on 2 to 3 year old trees and stays white winter and summer. Dense, bright green foliage covers the fine graceful branches to provide beautiful contrast to the white bark. The foliage turns a pleasing yellow in the fall. Grows to a height of about 25 to 30 feet. Perfectly hardy, easy to grow, thrives everywhere. The Birches, with their artistic white bark and attractive foliage, are beautiful all seasons of the year. Widely used for specimen planting or naturalizing.
